$100 STOLEN FROM SAFE IN HIGH SCHOOL

Ashville Is Seeking Proceeds From Operetta, Removed Over Week-end.

Ashville has a mystery to solve with the theft over the past week-end of nearly $100 from the safe in the office of Superintendent Hegele in the high school building.

The money included the proceeds from the operetta, "Sunbonnet Sue," presented in the auditorium Friday night, and the library fund.

The proceeds from the operetta were placed in the safe, on which the lock was broken, after the performance Saturday night. The doors to the office were locked, but when the the safe was opened Monday the money was gone.

The mysterious part of the entire affair that all the doors to the office were found locked Monday morning as were all the doors and windows to the building.

NUMBER OF THEORIES . .

A number of theories have been advanced to explain the disappearance of the money, which residents of Ashville are determined to recover. Sheriff Frank Davis investigated the robbery, interrogating a number of teachers and pupils in the school.

The obliteration of finger prints on the safe before Sheriff Davis arrived at the school Monday is said to make the tracing of the robber more difficult. The possible tell-tale of finger prints were lost when others handled the safe door in a thorough search of its interior before robbery was suspected.

The employment of a detective to aid Sheriff Davis in the case was being discussed Tuesday by several Ashville residents, it was reported.

MINISTER IS GIVEN HONOR

Kingston Pastor Receives Letter of Appreciation From Church.

Rev. George W. Brown, pastor of the Presbyterian church of Kingston, was the recipient of an honor from the members of the Methodist church of Kingston Sunday, when they handed to him at the evening union service, a letter of appreciation for his work in Kingston in conjunction with the work of Rev. Webb, pastor of the Methodist church.

Rev. Brown has been called to another church and it was in appreciation of his work in Kingston and also of regret at his leaving that the action was taken by the Methodists. Rev. Brown and his family are to take over a church in Amanda, O., the first of May and his resignation from the Kingston church is effective at that time.

The two churches in Kingston, though of a different denomination, have for the past year joined together in all church activities and have endeavored to render the best that can be had in church work and their efforts have met with considerable success as the above letter shows.

The spirit of the Methodist congregation in giving to Rev. Brown this letter of appreciation is one to be commended and is an example of what may be gained by union efforts between different denominations.

MORNING EXERCISE SCORED BY EXPERT

NEW YORK, April 9—The alarm clock, with its little brothers, the cold shower and the morning exercise ritual, lost considerable prestige when Dr. Jess F. Williams professor of physical education at Teachers college, declared that all three unpopular pastimes were "silly, superstitious and artificial."

"The alarm clock as an institution should be abolished. Cold showers and morning setting up exercises are a distinct shock to the nervous system" he relates in a report issued for students at the college.

Professor Williams offers a "get up by nature" programme, with provisions for early retiring as a substitute

FIREMAN ENDS LIFE

COLUMBUS, April 9—James Fowell 66, former city fireman shot and killed himself at his home here early today He fired two shots, one of which penetrated his heart Ill health was described as the motive by police.

Two More School Girls Missing

Gertrude Schmidt, aged 18, and Hazel Mallett, aged 17, both of New York, have been added to the already long list of missing school girls. These girls, fast friends, have been gone only a short time and hope is felt that they will return shortly, but a desperate search is being made for them.

MRS. DRESBACH DIES TUESDAY

Illness of Two Years Results In Death at E. Main-St. Residence.

Two years of intense suffering terminated in the death Tuesday at 10 a. m., of Mrs. Amy M. Dresbach, 42, wife of Harvey W. Dresbach, at their home in E. Main-st.

Mrs. Dresbach, who realized her critical condition, was conscious and talked calmly with the members of her family until the time of her death.

She was a native of Pickaway-co, and was born in Circleville-twp on April 17, 1887, the daughter of Abraham and Mary Valentine Metzger. On Dec. 2, 1909, she was united in marriage with Harvey W. Dresbach, who with a son, Harold, survives.

Other immediate family two sisters, Mrs. John Ueker, Walnut-twp, and Mrs. Omer P. Kraft, Sycamore, O., and three brothers; Edward Metzger, Columbus, and George and Lawrence Metzger, Circleville-twp, also survive.

Funeral services which are in charge of the Albaugh Co and for which Mrs. Dresbach, realizing that death was imminent, had planned will be held at the home, 332 E. Main-st at 2.30 p. m. Friday. Rev. G. J. Troutman of Trinity Lutheran church officiating with burial in Forest cemetery.

FARMERS GET FREIGHT CUTS

Organized Effort Obtains Two Reductions, Rector Points Out.

Farmers of this county are now receiving the benefit of two freight rate reductions which were secured largel y through organized effort, according to Edw C. Rector, president of the Pickaway County Farm Bureau.

Last fall the Interstate Commerce Commission ordered a reduction in freight rates on fertilizer in Ohio and adjacent territory, which averages one dollar a ton for the state of Ohio, or more than $30,000 in claims last year, the basis of the tonnage used last year. This saving in freight is affecting prices this spring for the first heavy fertilizer shipping season. The complaint which resulted in the reduction was originally brought by the Ohio Farm Bureau more than four years ago.

Again, last fall the Interstate Commerce commission ordered a reduction of approximately 12 percent on movement of livestock to market, but the reduction only applied to interstate shipments, or those moving from one state to another, according to Mr. Rector

Immediately following the reduction, the transportation department of the Ohio Farm Bureau Corporation entered complaint with the Ohio Public Utilities commission asking that the rate be applied, as well, to shipments of livestock moving within the state of Ohio The reduction was recently made in line with this complaint of organized farmers Savings from this further reduction in freight rates will mean more than $50,000 to farmers of Ohio, according to word received in this county from state farm bureau headquarters

Transportation service of the farm bureau also collected more than $300,000 annual savings on and has arranged for equipment, leases and service from the railroads, Mr. Rector says

Broadway Night Club Hostesses Appear In Court

NEW YORK, April 9— This is Broadway night club day in federal court.

Texas Guinan, Helen Morgan, Miss T. Granlund and other main stem celebrities are to go on trial before visiting Judge Edwin Thomas of Connecticut on charges growing out of raids conducted last summer by Mrs. Mabel Walker Willerbrandt.

If convicted the defendants face jail sentences under the drastic Jones law

Judge Thomas returned to the New York bench and immediately meted out a few of the severe sentences for which he is noted. Several liquor defendants changed their pleas from guilty to not guilty, preferring to put their fate in the hands of a jury.

THREE JAILED ON ONE TRIP

Deputies Go To Newark and Lancaster After Boarders For Sheriff.

Three boarders were brought to the Pickaway-co jail Monday afternoon by Deputy Sheriffs John Ward and Miller Fissell, who obtained their prisoners in Newark and Lancaster.

Willie Armstrong was arrested in Newark for having violated his parole to the county commissioner by not paying on a bill of $115 and costs. He had been originally fined for stealing chickens from Joe Wolfe in Washington-twp.

Charles McConnahey alias McCormick, of Jackson, was arrested in Newark on charges of removing a mortgaged automobile and operating an auto under fictitious license plates. The charges were brought by Adrian Yates of Circleville. It is said that McConnahey removed tires, parts and license tags from a mortgaged auto and placed them on another.

In Lancaster, Leo Reginald Alexander of that city, was arrested on a charge of breaking and entering a fishing camp near Mt. Sterling.

KINGSTON RESIDENT INJURED IN CRASH

Sam Robey, 25, of Kingston, was removed to the Chillicothe hospital in a semi-conscious condition early Sunday following a smash on the Columbus pike, near the C. and O. bridge, about seven miles north of Chillicothe. Robey who suffered lacerations about the head and face and a number of body bruises was discharged later after being attended by Dr. Nisley

Robey's car was damaged considerably when it left the road A passing motorist brought him to Triangle Inn from where he was taken to the hospital by Albert McFerrin, of Chillicothe.

SAY U. S. BOMBED TOWN IN HONDURAS

MANAGUA, Nicaragua April 9 Reports that United States army planes bombing rebel encampments along the Nicaragua-Honduran boundary inadvertently bombed the town of Las Limas Honduras, were being investigated by military authorities here today.

According to stories reaching here Las Limas suffered much damage as the result of a fire which followed the bombing.

'Whiskey Rebellion' Returns In College

Fraternity of University of Virginia Refuses To Co-operate or Assist Authorities In Stamping Out Collegiate Drinking—Charter May Be Revoked.

CHARLOTTESVILLE, Va., April 9.—There is in American history what has popularly become known as "The Whiskey Rebellion." It took George Washington and federal troops to put it down.

Something very akin to that "rebellion" has broken out in the student body of the University of Virginia and given college authorities, as well as the prohibition authorities, something to think about.

The whole row, which has been seething and boiling beneath the surface for weeks, broke into the open today when it was revealed that members of the Delta Tau fraternity here have refused to co-operate with or assist the authorities in stamping out collegiate drinking.

As a result, an investigation is in progress which threatens the revocation of the chapter charter by national headquarters in New York.

MINISTER STARTS ROW

The trouble really started brewing last Thanksgiving when a Fredericksburg pastor, attending a football game at which the President and Mrs. Coolidge also were present, publicly "deplored" the drinking at the game, and asserted he saw scores of drunken students.

The Anti-Saloon League called upon Governor Byrd to investigate and he in turn, requested President Alderman to look into it and report. Subsequently, an investigation was made, and it resulted in the posting of a notice forbidding the possession and use of liquor in dormitories or about the precincts of the university.

Things rolled along until the travelling secretary of the Delta Tau Delta came around a few weeks ago on his regular inspection trip of chapter houses. He reported there was not only open drinking in the Delta house here, but that liquor was being made in the cellar.

ALUMNUS AROUSED

Thereupon, Frank S. Hemmick, national secretary of the chapter, advising that the parent organization was considering revocation of the Beta Iota chapter's charter for violation of the organization by-laws concerning liquor drinking in chapter houses.

One alumnus replied. "If the Evangelical Brotherhood and the Methodist Board of Prohibition, Temperance and Public Morals have succeeded in getting hold of Delta Tau Delta as they have of the federal government, I hope you kick us out forever and anon."

Charles E. Cuddy, president of the local chapter, denied there was any manufacture of whiskey in the cellar, but he and other officers of the chapter were adamant upon the question of their "policing" their fellow members to see that they observed the law.

CALLS MABEL 'POWER DRUNK'

Former Atlanta Warden Assails Mrs. Willebrandt For Her Policies.

LOS ANGELES, April 9.—Declaring Mabel Willebrandt, assistant United States attorney general, to be "drunk with power," John W. Snook, until recently warden of Atlanta penitentiary, today made a scathing denunciation of her spy system as a menace to the American system of government and a "disgrace" to the nation.

"She has income tax, prohibition and federal penitentiary departments to handle, and that is more than any single person can handle. Nothing short of congressional action can curb her wholesome flouting of justice," declared Snook in saying that Mrs Willebrandt is "drunk with power."

"I have sacrificed my position for a principle and consider it was worth while to do so," Snook said.

"It may seem ungracious to quarrel with a woman but there are times in the affairs of a nation when wrongs must be righted regardless of sex. I feel that such a time has arrived to expose Mrs Willebrandt and her policy.

"The espionage policy inaugurated by her involving the falsification of government documents in order to place spies in penal institutions as bonafide convicts has prostituted our courts and is an insult to Americanism"

ON FEEDER TOUR

H S. Lewis, Pickaway-co farm agent, went to Bowling Green Tuesday to attend a livestock feeders' tour and banquet in Wood co.

FOUR TRACTS OF LAND SOLD

Restaurant Fixtures Prove Bargain At Sheriff's Sale Here On Monday.

Four tracts of land and the fixtures of a restaurant were sold at a sheriff's sale Monday afternoon on the front steps of the Pickaway-co courthouse to satisfy judgements returned in common pleas court. All the land brought good prices, although under the appraisal value, but the restaurant fixtures were bought for a song. Deputy Sheriff Carl Porter was the auctioneer .

The case of the Scioto Building Loan Co. vs. Fred G. Garrett, 62.25 acres of land in Pickaway-twp, were sold at $42 25 an acre to Harley Allen. The appraisal was $50 an acre.

Three tracts of land in Monroe-twp, involved in the case of Ethel L. Haller vs. Stella V. Martin et al, were sold separately. One tract consisting of 64 acres and appraised at $90 per acre, was sold to Stella Martin Oyler on her bid of $60. Another tract of 20 acres, also appraised at $60 an acre, was sold to Mrs. Jennie Bowman, of Waterloo, for $57.50. The third tract of 33 acres, appraised at $55 an acre, was knocked down to C. C. Kneisley, of Grange Hall, for $36.67 per acre.

The fixtures and equipment of the Mary Pickens restaurant on S. Court-st were purchased by Don White, of Circleville, on his bid of $50. This sale was to satisfy a judgment in favor of A. A. Greeno against L. P. Teatsorth, who was recently divorced from his wife, Mary Pickens.

CALLES READY FOR BIG FIGHT

Mexican Generalissimo Plans Final Decisive Fight With Rebels.

(By International News Service)

Gen. Plutarco Elies Calles, commander-in-chief of the Mexican federals, is planning to move three armies of 25,000 men in a converging movement into the state of Sonora for the final decisive battle of the revolution, according to Mexico City advices to International News Service today.

Gen. Lazardo Cardenas, commander of the federal division of the northwest, is racing at top speed after the remnants of Gen. Francisco Manzo's rebel army in Sinaloa.

Gen. Calles informed President Portes Gil from his headquarters at Mazatlan that he expected the federals to overtake the insurgents near San Blas within 24 hours and fiive battle.

Gen. Calles believes that the rebels in Sonora can be cleaned up within two weeks This would then only isolate bands of rebels engaged in Guerrilla warfare.

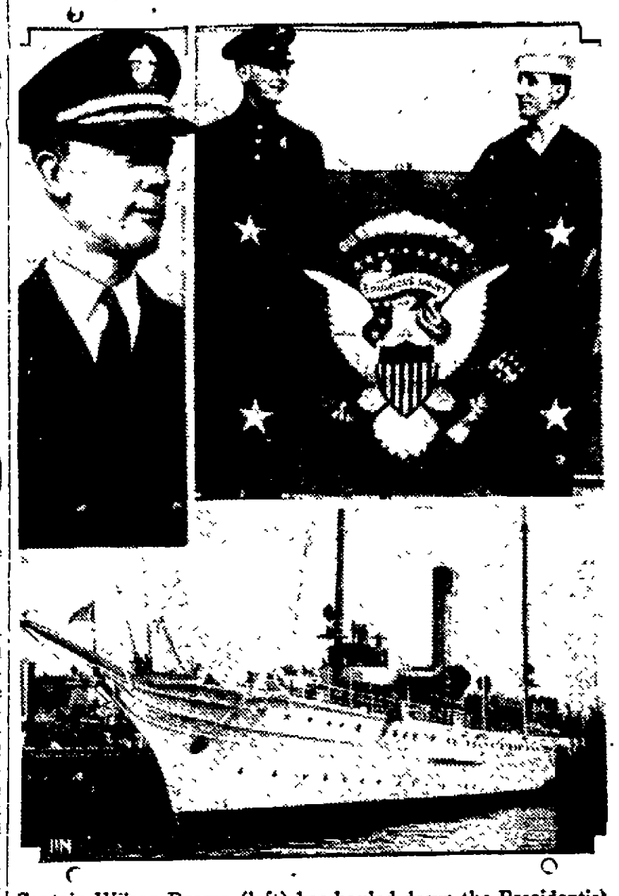
Gen. Jose Gonzalo Escobar, whoserebel army was defeated at Jimenez and again at La Reforma proclaimed himself "provisional president of the Mexican insurgents," at Juarez Later Gen Escobar left for Casas Grandes Chihuahua.

Fire Hazards To Be C. of C. Topic

Recommended improvements in the Circleville fire department will be the subject of an address before the Circleville Chamber of Commerce Tuesday evening by R. D. Criswell, engineer of the Ohio Inspection Bureau In a recent report to the city the inspection bureau said that if improvements are not made here the city will be placed in a lower classification and the rates for fire insurance will be raised Every business man of the city is urged to attend the meeting which starts at 6 o'clock tonight.

Richard D. Dimond of Mt Sterling was a business visitor in Circleville Tuesday.

Drydock Receives Faithful Vet



Captain Wilson Brown (left) has hauled down the Presidential flag (right), which has flown for years at the masthead of the Presidential yacht "Mayflower," shown below, being pushed into drydock at Philadelphia, where she will be decommissioned after long, faithful service. President Hoover believes the huge saving to be effected by this act will be of more benefit to the nation than use of the craft will be to himself,

Power of U. S. Senate To Conduct Probe Is Upheld By Supreme Court

Sinclair Must Serve Time In Jail For Failing To Testify In Oil Deal.

WASHINGTON, April 9— After a five year legal battle, the power of the United States senate to conduct legislative investigations, to compel testimony and to punish recalcitrant witnesses stood unchallenged today following the supreme court's decision in the Harry F. Sinclair case. Sinclair must serve 90 days in jail for contempt.

The high tribunal's decision was so sweeping it convinced senate leaders that either branch of congress has the constitutional authority to conduct investigations almost without restriction. Leaders on capitol hill interpreted the court's ruling as confirming the right of the house or senate to inquire into the administration of any division of the federal government, into the operation of any existing law and into the necessity of legislation on any subject.

The Sinclair decision marked the second time in the last two years in which the court has upheld the senate's power of inquiry. Once before, in the Mal Daugherty case, it ruled the senate could compel testimony and subpoena papers in a specific case. The decision meant little since Daugherty's testimony was no longer desired at the time and he had destroyed the desired papers.

In senatorial opinion, the court's decision will stand as a guide post in the contempt case against Thomas W. Cunningham, a Philadelphia Vare leader, who defied the Reed slush fund committee. Cunningham's case has been appealed to the supreme court on contentions similar to those raised by Sinclair.

The broad scope of senatorial investigations was authorized by the high court authority to its committee to investigate and report what had been and was being done by executive departments under the leasing act, the naval oil reserve act and the president's order in respect to the reserves and to make any other inquiry concerning the public domain."

Congressional leaders pointed out that this ruling would apply to almost any inquiry within reason by merely substituting some other word for "leasing." It could apply as well to "prohibition" act or "interstate commerce" act.

BLAMES TEACHERS IN DEATH OF SON

HUNTINGTON, W Va., April 9—Board of education officials here conferred today to fix a hearing on the petition which was presented by Mrs. William M Crook, protesting against the reappointment of Edgar Q Swan as principal, and T Smith Brewer as assistant principal, of the Huntington high school

Mrs. Cook charges Swan and Brewer with "moral responsibility" for the death of her son William Jr. who was killed in an automobile accident near Waverly Ohio, early in March

The petition holds the educators culpable for alleged failure to notify her of her son's suspension from school, stating the boy was, obviously humiliated by the suspension and decided to leave home He is reported to have been enroute to Columbus to seek employment at the time he was killed

POSTPONE MEETING

The meetings now on for this week at the North End Mission have been postponed because of important business to be taken up which Rev. White is transacting in Cincinnati The session meetings will be continued soon, however, and will be announced later

DEAD CONVICT UNDER ARREST

Supposed Victim of Brick Plant Fire Captured In California.

COLUMBUS, O., April 9— Bruno J. Kochynski, Dayton, O., and prisoner of the Ohio State penitentiary, who was believed to have been burned to death in the disastrous Junction City brick plant fire has been arrested by San Francisco police, according to advices reaching Warden P. E. Thomas of the state institution here today.

Twenty convicts were reported missing after the fire, which destroyed the dormitory building. Undertakers say that they buried 15 bodies. Three others have been found and returned to the institution, and with the Dayton man in custody of police, there only remains one unaccounted for.

Kochynski was admitted to the penitentiary here on July-11, 1927, to begin serving a one-to-seven year term for larceny. A short time afterwards he was made an "honor man" at the brick plant near New Lexington.

He was arrested on a charge of robbery in the Pacific coast city, according to information here It is not known yet whether he will be returned here immediately, or be allowed to stand trial in that city. If he is convicted he will serve his sentence in California, and then be arrested If he is freed he will be held for authorities here

WRIST IS BROKEN

Mrs Walter Marion wife of Pickaway-co's representative in the Ohio legislature suffered the fracture of her right arm at the wrist Tuesday morning when she fell down stairs at the home of William Weaver, S. Court-st Dr. D V Courtright dressed the injury.

CITY AGAINST COUNTRY WHEN IS DECLARED

Senator Bender Says Rural Minority Making Urban Residents Suffer.

COLUMBUS, O., April 9.—Equal representation, whereas now the rural minority is said to control the Ohio legislature, will be sought in a referendum fight by Sen. George H. Bender, Cleveland, according to that member of the general assembly here today.

Plans have already been made for the circulation of petitions proposing a constitutional amendment giving the cities their fair share of representation according to population, the Cleveland solon declared.

Bender, who led the famous referendum fight on the Marshall bill which resulted in the "justices of peace" measure being defeated, said that he was prepared to press the initiated amendment with even more vigor than he pressed the "JP" referendum.

MORE PEOPLE IN CITIES

In support of his charges and in asking the cities "to take this chance to throw off the shackles" Bender pointed out that the urban population in the state in 1920 was 3,677,136 while the rural population was only 2,082,258. This has increased accordingly during the last nine years, the senator claims, and despite this fact, he charges, the rural minority is able to control the legislature.

As a result, Bender declared, legislation giving cities free exercise of home rule cannot be enacted.

Citing the present system in the lower house of the legislature, whereby there is one Cuyahoga co member for every 58,812 of population, while Vinton-co has one representative for its 12,000 people and Wyandot-co has one representative for its population of 19,481, the Cleveland senator declared the upper house district system was unfair and should be changed.

CHANGE PROPOSED

This situation exists, however, under the constitution of the Buckeye state, every county must have at least one member in the lower house.

The petition which Bender will circulate in hope of getting the required 100,000 signatures for a referendum vote at the next election, follows, in part:

"It is proposed to fix the number of members in the general assembly at 30 in the senate and 100 in the house. Each county shall continue to be a unit for purposes of representation in the house and senate but the present provision securing one representative to each county is eliminated."

"The governor, auditor and secretary of state determine the ratio of representation according to the decennial census, apportion the state into representative and senatorial districts, and determine the number of representatives each county or district is entitled to during the 10-year period following each census."

PROVIDES DISTRICTS

"If a county does not have sufficient population to entitle it to a representative or senator it may be joined to a contiguous county or counties to form a representative or senatorial district. No part of a county shall be added to another county to make a district.

(Continued on page three)

77 WORSHIPERS IN CHURCH ROBBED

CHICAGO, April 9—Five shotgun bandits who last night invaded the first Roumanian congregation church, one of the largest synagogues in the city, and held up 77 worshippers, including the Roumanian consul, were the object of a county-wide search today.

The bandits, posing as worshippers, called Rabbi Harry Goldstein to the door, covered him with guns and forced him to lead them to the meeting, in the basement of the synagogue.

All present were forced to line up with their backs to the wall where they were robbed of cash and valuables. No accurate estimate of the loot has been made, but it will run into many thousands of dollars

TED LEWIS ON AIR

Ted Lewis will broadcast Tuesday night from 11 to 12 o'clock over Cleveland WTAM and WLS Chicago He is singing and playing from Los Angeles over a radio hook up and altho these stations were not named Circleville radio enthusiasts will probably receive the program from Chicago or Cleveland.

MINISTER STARTS ROW

The trouble really started brewing last Thanksgiving when a Fredericksburg pastor, attending a football game at which the President and Mrs. Coolidge also were present, publicly "deplored" the drinking at the game, and asserted he saw scores of drunken students.

The Anti-Saloon League called upon Governor Byrd to investigate and he, in turn, requested President Alderman to look into it and report. Subsequently, an investigation was made, and it resulted in the posting of a notice forbidding the possession and use of liquor in dormitories or about the precincts of the university.

Things rolled along until the travelling secretary of the Delta Tau Delta came around a few weeks ago on his regular inspection trip of chapter houses. He reported there was not only open drinking in the Delta house here, but that liquor was being made in the cellar.

ALUMNUS AROUSED

Thereupon, Frank S. Hemmick, national secretary of the chapter, advising that the parent organization was considering revocation of the Beta Iota chapter's charter for violation of the organization by-laws concerning liquor drinking in chapter houses.

One alumnus replied, "If the Evangelical Brotherhood and the Methodist Board of Prohibition, Temperance and Public Morals have succeeded in getting hold of Delta Tau Delta as they have of the federal government, I hope you kick us out forever and anon."

Charles E. Cuddy, president of the local chapter, denied there was any manufacture of whiskey in the cellar, but he and other officers of the chapter were adamant upon the question of their "policing" their fellow members to see that they observed the law.

CALLS MABEL 'POWER DRUNK'

Former Atlanta Warden Assails Mrs. Willebrandt For Her Policies.

LOS ANGELES, April 9.—Declaring Mabel Willebrandt, assistant United States attorney general, to be "drunk with power," John W. Snook, until recently warden of Atlanta penitentiary, today made a scathing denunciation of her spy system as a menace to the American system of government and a "disgrace" to the nation.

"She has income tax, prohibition and federal penitentiary departments to handle, and that is more than any single person can handle. Nothing short of congressional action can curb her wholesome flouting of justice," declared Snook in saying that Mrs. Willebrandt is "drunk with power."

"I have sacrificed my position for a principle, and consider it was worth while to do so," Snook said.

"It may seem ungracious to quarrel with a woman, but there are times in the affairs of a nation when wrongs must be righted regardless of sex. I feel that such a time has arrived to expose Mrs. Willebrandt and her policy.

"The espionage policy inaugurated by her involving the falsification of government documents in order to place spies in penal institutions as bonafide convicts has prostituted our courts and is an insult to Americanism."

ON FEEDER TOUR

H. S. Lewis, Pickaway-co farm agent, went to Bowling Green Tuesday to attend a livestock feeders' tour and banquet in Wood co.

FOUR TRACTS OF LAND SOLD

Restaurant Fixtures Prove Bargain At Sheriff's Sale Here On Monday.

Four tracts of land and the fixtures of a restaurant were sold at a sheriff's sale Monday afternoon on the front steps of the Pickaway-co courthouse to satisfy judgements returned in common pleas court. All the land brought good prices, although under the appraisal value, but the restaurant fixtures were bought for a song. Deputy Sheriff Carl Porter was the auctioneer.

In the case of the Scioto Building Loan Co. vs. Fred G. Garrett, 62.25 acres of land in Pickaway-twp, were sold at $42.25 an acre to Harley Allen. The appraisal was $50 an acre.

Three tracts of land in Monroe-twp, involved in the case of Ethel L. Haller vs. Stella V. Martin et al, were sold separately. One tract consisting of 64 acres and appraised at $90 per acre, was sold to Stella Martin Oyler on her bid of $60. Anotner tract of 20 acres, also appraised at $60 an acre, was sold to Mrs. Jennie Bowman, of Waterloo, for $61.50. The third tract of 33 acres, appraised at $55 an acre, was knocked down to C. C. Kneisley, of Grange Hall, for $36.67 per acre.

The fixtures and equipment of the Mary Pickens restaurant on S. Court-st were purchased by Don White, of Circleville, on his bid of $50. This sale was to satisfy a judgment in favor of A. A. Greeno against L. P. Teatsorth, who was recently divorced from his wife, Mary Pickens.

CALLES READY FOR BIG FIGHT

Mexican Generalissimo Plans Final Decisive Fight With Rebels.

(By International News Service)

Gen. Plutarco Elies Calles, commander-in-chief of the Mexican federals, is planning to move three armies of 25,000 men in a converging movement into the state of Sonora for the final decisive battle of the revolution, according to Mexico City advices to International News Service today.

Gen. Lazardo Cardenas, commander of the federal division of the northwest, is racing at top speed after the remnants of Gen. Francisco Manzo's rebel army in Sinaloa.

Gen. Calles informed President Portes Gil from his headquarters at Mazatlan that he expected the federals to overtake the insurgents near San Blas within 24 hours and fiive battle.

Gen. Calles believes that the rebels in Sonora can be cleaned up witin two weeks. This would then only isolated bands of rebels engaged in Guerrilla warfare.

Gen. Jose Gonzalo Escobar, whoserebel army, was defeated at Jimenez and again at La Reforma proclaimed himself "provisional president of the Mexican insurgents," at Juarez. Later Gen. Escobar left for Casas Grandes, Chinhuahua.

Fire Hazards To Be C. of C. Topic

Recommended improvements in the Circleville fire department will be the subject of an address before the Circleville Chamber of Commerce Tuesday evening by R. D. Criswell, engineer of the Ohio Inspection Bureau. In a recent report to the city, the inspection bureau said that if improvements are not made here, the city will be placed in a lower classification and the rates for fire insurance will be raised. Every business man of the city is urged to attend the meeting which starts at 6 o'clock tonight.

Richard D. Dimond, of Mt. Sterling, was a business visitor in Circleville Tuesday.

Drydock Receives Faithful Vet

Captain Wilson Brown (left) has hauled down the Presidential flag (right), which has flown for years at the masthead of the Presidential yacht "Mayflower," shown below, being pushed into drydock at Philadelphia, where she will be decommissioned after long, faithful service. President Hoover believes the huge saving to be effected by this act will be of more benefit to the nation than use of the craft will be to himself.

Power of U. S. Senate To Conduct Probe Is Upheld By Supreme Court

Sinclair Must Serve Time In Jail For Failing To Testify In Oil Deal.

WASHINGTON, April 9— After a five year legal battle, the power of the United States senate to conduct legislative investigations, to compel testimony and to punish recalcitrant witnesses stood unchallenged today following the supreme court's decision in the Harry F. Sinclair case. Sinclair must serve 90 days in jail for contempt.

The high tribunal's decision was so sweeping it convinced senate leaders that either branch of congress has the constitutional authority to conduct investigations almost without restriction. Leaders on capitol hill interpreted the court's ruling as confirming the right of the house or senate to inquire into the administration of any division of the federal government, into the operation of any existing law and into the necessity of legislation on any subject.

The Sinclair decision marked the second time in the last two years in which the court has upheld the senate's power of inquiry. Once before, in the Mal Daugherty case, it ruled the senate could compel testimony and subpoena papers in a specific case. The decision meant little since Daugherty's testimony was no longer desired at the time and he had destroyed the desired papers.

In senatorial opinion, the court's decision will stand as a guide post in the contempt case against Thomas W. Cunningham, a Philadelphia Vare leader, who defied the Reed slush fund committee. Cunningham's case has been appealed to the supreme court on contentions similar to those raised by Sinclair.

The broad scope of senatorial investigations was authorized by the high court authority to its committee to investigate and report what had been and was being done by executive departments under the leasing act, the naval oil reserve act and the president's order in respect to the reserves and to make any other inquiry concerning the public domain."

Congressional leaders pointed out that this ruling would apply to almost any inquiry within reason by merely substituting some other word for "leasing." It could apply as well to "prohibition" act or "interstate commerce" act.

BLAMES TEACHERS IN DEATH OF SON

HUNTINGTON, W. Va., April 9—Board of education officials here conferred today to fix a hearing on the petition which was presented by Mrs. William M. Crook, protesting against the reappointment of Edgar Q. Swan, as principal, and T. Smith Brewer, as assistant principal, of the Huntington high school.

Mrs. Cook charges Swan and Brewer with "moral responsibility" for the death of her son, William Jr., who was killed in an automobile accident near Waverly, Ohio, early in March.

The petition holds the educators culpable for alleged failure to notify her of her son's suspension from school, stating the boy was, obviously, humiliated by the suspension, and decided to leave home. He is reported to have been euroute to Columbus to seek employment at the time he was killed.

POSTPONE MEETING

The meetings planned for this week at the North End Mission have been postponed because of important business for the church, which Rev. White is transacting in Cincinnati. The mission meetings will be continued soon, however, and will be announced later.

DEAD CONVICT UNDER ARREST

Supposed Victim of Brick Plant Fire Captured In California.

COLUMBUS, O., April 9— Bruno J. Kochynski, Dayton, O., and prisoner of the Ohio State penitentiary, who was believed to have been burned to death in the disastrous Junction City brick plant fire has been arrested by San Francisco police, according to advices reaching Warden P. E. Thomas of the state institution here today.

Twenty convicts were reported missing after the fire, which destroyed the dormitory building. Undertakers say that they buried 15 bodies. Three others have been found and returned to the institution, and with the Dayton man in custody of police, there only remains one unaccounted for.

Kochynski was admitted to the penitentiary here on July-11, 1927, to begin serving a one-to-seven year term for larceny. A short time afterwards he was made an "honor man" at the brick plant near New Lexington.

He was arrested on a charge of robbery in the Pacific coast city, according to information here. It is not known yet whether he will be returned here immediately, or be allowed to stand trial in that city. If he is convicted he will serve his sentence in California, and then be arrested. If he is freed, he will be held for authorities here.

WRIST IS BROKEN

Mrs. Walter Marion, wife of Pickaway-co's representative in the Ohio legislature, suffered the fracture of her right arm at the wrist Tuesday morning when she fell down stairs at the home of William Weaver, S. Court-st. Dr. D. V. Courtright dressed the injury.

CITY AGAINST COUNTRY WAR IS DECLARED

Senator Bender Says Rural Minority Making Urban Residents Suffer.

COLUMBUS, O., April 9.--Equal representation, whereas now the rural minority is said to control the Ohio legislature, will be sought in a referendum fight by Sen. George H. Bender, Cleveland, according to that member of the general assembly here today.

Plans have already been made for the circulation of petitions proposing a constitutional amendment giving the cities their fair share of representation according to population, the Cleveland solon declared.

Bender, who led the famous referendum fight on the Marshall bill which resulted in the "justices of peace" measure being defeated, said that he was prepared to press the initiated amendment with even more vigor than he pressed the "JP" referendum.

MORE PEOPLE IN CITIES

In support of his charges and in asking the cities "to take this chance to throw off the shackles" Bender pointed out that the urban population in the state in 1920 was 3,677,136 while the rural population was only 2,082,258. This has increased accordingly during the last nine years, the senator claims, and despite this fact, he charged, the rural minority is able to control the legislature.

As a result, Bender declared, legislation giving cities free exercise of home rule cannot be enacted.

Citing the present system in the lower house of the legislature, whereby there is one Cuyahoga-co member for every 58,912 of population, while Vinton-co has one representative for its 12,075 people and Wyandot-co has one representative for its population of 19,481, the Cleveland member of the upper house stated that this was unfair and should be changed.

CHANGE PROPOSED

This situation exists because under the constitution of the Buckeye state, every county must have at least one member in the lower house.

The petition which Bender will circulate in hope of getting the required 100,000 signatures for a referendum vote at the next election, follows, in part:

"It is proposed to fix the number of members in the general assembly at 30 in the senate and 120 in the house. Each county shall continue to be a unit for purposes of representation in the house and senate but the present provision securing one representative to each county is eliminated."

"The governor, auditor and secretary of state determine the ratio of representation according to the decennial census, apportion the state into representative and senatorial districts, and determine the number of representatives each county or district is entitled to during the 10-year period following each census."

PROVIDES DISTRICTS"

"If a county does not have sufficient population to entitle it to a representative or senator it may be joined to a contiguous county or counties to form a representative or senatorial district. No part of a county shall be added to another county to make a district.

(Continued on page three)

77 WORSHIPERS IN CHURCH ROBBED

CHICAGO, April 9—Five shotgun bandits who last night invaded the first Roumanian congregation church, one of the largest synagogues in the city, and held up 77 worshippers, including the Roumanian consul, were the object of a county-wide search today.

The bandits, posing as worshipers, called Rabbi Harry Goldstein to the door, covered him with guns and forced him to lead them to the meeting, in the basement of the synagogue.

All present were forced to line up with their backs to the wall where they were robbed of cash and valuables. No accurate estimate of the loot has been made, but it will run into many thousands of dollars.

TED LEWIS ON AIR

Ted Lewis will broadcast Tuesday night from 11 to 12 o'clock over Cleveland WTAM and WLS Chicago. He is singing and playing from Los Angeles over a network, and altho these stations were not named Circleville radio enthusiasts will probably receive the program from Chicago or Cleveland.

A Country Editor

IN AND ABOUT THE STATE HOUSE

A Department of News Service And Cooperation for Herald Readers

To Herald Readers:
The writer is a Country Editor whose duties at the State House afford him opportunity to write of happenings and conditions in and about the Capitol which should prove of especial interest to The Circleville Herald readers.

A feature of this department, through special arrangement between The Herald and the Department of Agriculture, is that readers may feel free to address inquiries and communications touching on matters connected with any governmental activities in the Capitol to The Herald, Care Department of Agriculture, Columbus, Ohio.

Editor, The Herald.—

It's all over but the shouting and the Legislature and Senate are closing up shop, with Columbus papers calling it "the best Legislature in years." It is going to be somewhat lonesome around the State House without the lawmakers. Still we'll have the position seekers with us. The reception rooms of the governor's office and those of his cabinet members are full of people nearly every hour of the working day. Many callers are seeking preferment — some merely to pay their respects. The "big men" are anxious to see all of them, but only those behind the scenes can appreciate what a strain and handicap this feature of official duty imposes.

* * *

A number of Legislators found notes on their desks last Monday reading: "Call Mr Graves, Adams 8651." A number of them made for phones, only to discover that they were calling the cemetery—on April 1st.

* * *

Better conditions for the farmers of Ohio this year are predicted by Perry L Green, Director of the Department of Agriculture "My opinion, based on observation statistics and the expressions of farmers generally from all part of Ohio, is that a more hopeful attitude is prevailing and economic conditions are better than they were a year ago," is the way he puts it.

* * *

Expressed in figures a long list of farm commodities shows 140 per cent for the first quarter of 1929 compared with the same period of 1914. It is three points higher than March 15 1928, and 14 points higher than March, 1927. In other words, farm products are now 40 per cent higher than the average of four years just preceding the World war.

* * *

Director of Agriculture, Perry L. Green, Portage-co, is something of a weather prophet, in that mysterious way that men who farm seem able to forecast the meterological future from various homely manifestations of nature Incidentally, he likes lightning.

* * *

During the recent spring weather, the director saw a flash or two of lightning shoot across a lowering sky.

* * *

"I certainly like that," he remarked.. "That means an early spring."

* * *

O. J Bailey, chief of the Food and Dairies Division, advises the public to watch carefully the weight of food stuffs. A statewide campaign is being waged to restore vigilance in the matter of sanitation of food supply houses and dairies. Mr. Bailey also warns the public in regard to the purchase of so-called "maple syrup" from strange or unreliable people This product is very often adulterated and is not properly labeled Infractions of the law in this respect should be reported to the Food and Dairies Division at Columbus.

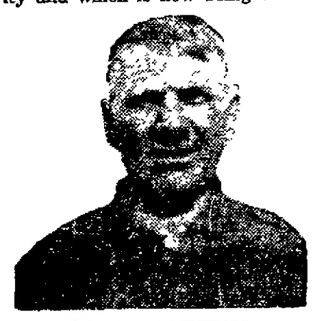
* * *

If we can be of service here in the State House to any reader of this paper, write us—Care, Editor Department of Agriculture, Columbus, Ohio.

LOCAL MAN FINDS NEW HEALTH THRU HOYT'S COMPOUND

Circleville, Ohio, Man Is Victim of Rheumatism and Kidney Trouble — Now Like New Man.

The latest local resident to endorse Hoyt's Compound is Mr. Peter Dumm, who resides at 226 Logan St., Circleville, O. This is the famous prescription that has brought new health to so many residents of Circleville and vicinity and which is now being introduced every day at Wilder's Drug Store, this city. Since Hoyt's was first introduced in this vicinity many hundreds of bottles have been sold here and the sales are increasing every day. At first everyone was skeptical about this new medicine, since it is the first time that it was ever introduced here, but after a few of the local people had tried Hoyt's and found that the ads which were published here were not mere promises but facts which had been proven in other cities where Hoyt's had been introduced, they quickly began taking it and finding out for themselves. So many local residents have endorsed this medicine that it would be impossible to publish all of their statements, so we are picking out some of the most remarkable cases and publishing their statements every day. The latest resident of this vicinity as stated above, to come to the front for Hoyt's is Mr. Peter Dumm, who is past 60 years of age and who has lived near Circleville his entire life. Mr. Dumm was a butcher by trade and due to his activity in that line has made many friends in this territory. He was a victim of rheumatism which steadily grew worse until it was impossible for him to even raise his arms. He also suffered from indigestion and gas pains which started after each meal, and turned his stomach into a mass of gas. Then he heard about the Hoyt's Compound and started taking it. He found at once that what others said about Hoyt's was entirely true. His own statement follows:



MR. PETER DUMM.

"I have been a resident of this vicinity all my life," said Mr Dumm. "A great many years I worked as butcher but the last few years I have been inactive due to my age and my ailments which I will describe. I was a great victim of rheumatism which set in my shoulders and grew steadily worse until I was unable to raise my arms. Gas formed on my stomach after each meal and it seemed like everything I ate just turned into a mass of gas, from which I suffered extremely at times. Deranged kidneys broke my rest many times each night and made life very miserable for me. I heard about Hoyt's Compound and decided to try it. I purchased two bottles and from the first few doses I began to get relief. I have now taken three bottles and the rheumatism is entirely gone and my stomach is in a greatly improved condition. I now have a good appetite and am no longer troubled with gas forming after meals. I sleep soundly every night, in fact I now feel like a new man

Hoyt's Compound is being introduced daily at Wilder's Drug Store, Circleville, Ohio —Adv. entirely, thanks to Hoyt's Compound."

OBITUARY

Arthur Owen Talbut, son of Alphonso and Sarah Rhoads Talbut, was born in Madison-twp, Pickaway-co., Ohio, Dec. 13, 1869, and departed this life at his home in Circleville, O., April 2, 1929, at the age of 59 years, three months, and 19 days. In early infancy he was dedicated to the Lord in holy baptism and at the age of 14 years was confirmed a member of the Evangelical church at St. Paul, O., later transferring his membership to the Lutheran church of Circleville, O. To his early confirmation vows he remained faithful unto death.

"Be thou faithful unto death and I will give thee a crown of life."

Quiet and unassuming in manner, just and honorable in all his dealings with his fellowmen, he was a man who made no enemies and lost no friends.

On Feb. 14. 1908. he was united in marriage with Mary Ward. This union was blessed with two children, a son, dying in infancy and a daughter, Clarissa, at home. Besides his wife and daughter he leaves to mourn his departure an only sister. Mrs. Geo. W. Runkle.

He was a devoted husband, a kind and indulgent father, a loving brother and a true friend and he will be sadly missed, not only by those near and dear to him, but also by many friends His last illness, though prolonged and severe was borne without a murmur and quietly and peacefully, at the dawning of a new day, hand in hand with his Savior he passed through the valley and entered into his rest.

Tho we shall miss him, yet we bow in humble submission and say Thy will not ours, O Lord be done

'Tis Heaven that whispers "dry thy tears the pure in heart shall meet again."

Unclaimed Letters

The following unclaimed letters remain in the Circleville postoffice for the week ending April 9, 1929:

How to Play BRIDGE

Series 1928-29 by **Wynne Ferguson**

Author of "PRACTICAL AUCTION BRIDGE"

Copyright 1928, by Hoyle, Jr

ARTICLE No. 36

One of the difficulties that besets the average bridge player is the proper play of the hand when only a few cards remain that is, the so-called "end plays". Here is one that was submitted recently and is given as an example because it contains a principle that occurs very frequently:

	Hearts — 8 Clubs — A, Q, 8 Diamonds — 10 Spades — 10, 7	
Hearts — 10, 9, 3 Clubs — 10 5, 4 Diamonds — J Spades — none	: Y : : A B : : Z :	Hearts — none Clubs — K, J, 7, 3 Diamonds — Q Spades — 9, 8
	Hearts — J Clubs — 9, 6, 2 Diamonds — none Spades — Q, J, 6	

Spades are trumps and Z is in the lead. How can he play the hand so that he will win six of the seven tricks against any defense?

The end play consists in first taking out all of B's cards, except clubs, so that when that suit is led, B will be forced to win the trick and lead back the same suit. This type of end play is called "stripping" the hand or the "elimination" play.

Solution: Z should first lead two rounds of spades, winning the second spade trick in Y's hand with the ten of spades. Y should then lead the ten of diamonds and Z should trump with his last spade. Z should then lead the jack of hearts, on which B should discard the seven of clubs. Z should then lead the deuce of clubs and A should play the ten of clubs, Y the queen and B should win the trick with the king of clubs.

What can B now lead except the trey of clubs? Y Z must win the next two tricks. By taking out all of the cards in B's hand, except clubs, Z has been able to force B in the lead to his disadvantage. If A played a low club, instead of the ten spot, Y should play the eight of clubs: and the result would be the same. Be on the lookout for such plays, for the opportunity to make them occurs frequently enough to make this knowledge well worth while.

Answer to Problem No. 36

	Hearts — J Clubs — 7, 5, 4, 3, 2 Diamonds — Q Spades — Q, 7	
Hearts — 4 Clubs — J 10 Diamonds — J. 10, 7, 5 Spades — 9, 4	: Y : : A B : : Z :	Hearts — 10 Clubs — K, 6 Diamonds — 9, 3 Spades — K, 10, 8, 3
	Hearts — none Clubs — A, Q, 9, 8 Diamonds — none Spades — A, J, 6, 5, 2	

If hearts are trumps and Z is in the lead, how can Y Z win eight of the nine tricks against any defense?

Z should lead the ace of clubs B has two plays: *First*, he can play a low club If he does, Z leads the nine of clubs, forcing B in the lead. B must now lead either a heart, a diamond or a spade. If he leads the heart, Y wins the trick and leads out the queen of diamonds and on these two tricks Z should discard his two remaining clubs. Y's clubs are now good and he should lead them out. Z discards three low spades. Y should now lead the queen of spades and no matter what B does, Y Z must win two spade tricks.

Suppose B at trick three leads a diamond Y wins the trick and should lead the jack of hearts, Z discarding his two clubs as before. The play results the same.

In case that B leads a low spade at trick three, Z should play low and allow Y to win the trick with the queen Y should now play the jack of hearts and queen of diamonds and Z should discard his two clubs If at trick three, B should lead the king of spades, Z should win the trick and put Y in the lead with the queen of spades at trick four. Y should then lead the jack of hearts and queen of diamonds as before, and the play is the same. Played in this way, therefore, Y Z must win all of the tricks but one

Second: Suppose that when Z leads the ace of clubs, B should play the king of clubs so that he cannot be forced into the lead at trick two. This is B's best defense and makes Z's play more difficult. Z should now lead the jack of spades and B's best play is to refuse to win the trick. If B does win the trick with the king of spades, and returns a club, Z will make his queen of clubs, enter Y's hand with the queen of spades, and proceed as before, giving Z two club discards. If B returns a heart, diamond or spade, Y will win the trick, and Z will discard his two losing spades on Y's jack of hearts and queen of diamonds. Z's clubs and ace of spades will take the rest of the tricks.

B's best play is to play the king of clubs at trick one and to refuse to win the second trick with the king of spades. Z should now continue the play as follows: At trick three, he should lead the ace of spades and follow with the nine of clubs, thus forcing A to win the trick with the jack of clubs. A has no defense to this play as he must follow suit. A must now lead either a heart or a diamond which Y wins and is thus again able to give Z two discards of clubs. Y's clubs are now good and Y Z are again able to win all of the tricks but one.

It is an interesting little problem and each variation should be worked out carefully.

BIRTHS

A daughter was born Sunday, April 7, to Elzie and Fannie Row Brooks at their home, 118 W. Corwin-st.

Mr. and Mrs John D Bragg, Montclaire-ave, announce the birth of a daughter on Sunday, April 7.

Mr. and Mrs. Bundy Sowers (Marie Turner) of Pontiac, Mich., announce the birth of a son, Sunday, April 7.

Entirely Different

"A parachute looks like an umbrella."

"It's very different, said the aviator "No sensible human permits himself to be embarassed in an emergency by the discovery that he has lent his carachute to a friend."

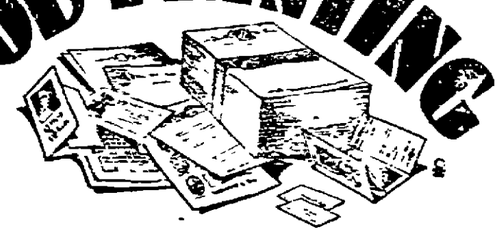
Chasing Woodchucks

The wise farmers, when bothered by woodchucks, resort to one of three methods in thinning them out They insert either calcium cyanid or carbon disulphide in the chuck's burrow and seal it over. The fume in a short time will penetrate every part of the burrow and Mr. Woodchuck is gassed to death. Another method is that of attaching a hose to the exhaust of a tractor engine or automobile and inserting down into the burrow, sealing the entrance and racing the engine Carbon monoxide does the rest. Hunting chucks with firearms is a long drawn out job and has never been satisfactory.

Easily Evident

According to the Department of Commerce, the supply of nuts is adequate. Many incidents in the news of the day tend to support the department's findings. — Boston Transcript.

JOB PRINTING



That S-e-l-l-s

A GOOD printer must do more than merely go through the routine of setting type, inking the roller, etc. He must know how to set up your message so that it will leap out of the paper to capture the reader's eye. So that it will combine emphasis with refined appeal.

We Are Good Printers.

"Builders of Better Printing."

Yacht Mystery Defies Solution

The spectre of death raised its head on board the yacht "Nomad" found adrift off Cape May, N. J. When the Coast Guard boarded the helpless vessel belonging to Leland H. Ross of New York, they found the captain, John L. Schofield, missing and learned that he had been lost overboard during a heavy storm. Guardsmen alleged the crew and owner were found under the influence of liquor and over forty bottles of alleged liquor were rolling around the floor of the cabin. Picture shows schooner arriving at Philadelphia, Pa.

CITY VS. COUNTRY

(Continued from Page One)

However, nothing herein shall be construed to prevent two or more representatives from being elected from one county or district at any one election if in so doing the purpose of equality in representation may be better served."

The amendment provides that the whole population of the state as determined by federal census shall be divided into 120 equal parts and the quotient shall be the ration of representation in the house. The ration in the senate would be determined by dividing the population by 30 according to the provisions.

At the last session of the legislature, which has just unofficially adjourned, there were 31 senators and 133 representatives.

Under the 1920 census figures Bender claims, the ration of representation would be 47,991 for members of the lower house. This would give Cuyahoga-co 19 representatives instead of 16, Franklin-co six instead of five, Hamilton-co 10 instead of nine, and counties such as Clinton and Wyandot would be joined with other counties to obtain a representative in the lower house.

COUNTIES EFFECTED

There are 64 counties, under the 1920 census, which have less than 47,991 population. They include Ashland, Auglaize, Champaign, Coshocton, Crawford, Defiance Delaware, Erie, Gallia, Hardin, Logan, Marion, Pickaway, Portage, Preble, Sandusky Seneca, Shelby, Union Van Wert Vinton, Washington, Wayne, Wood and Wyandot.

This unequal representation was emphasized in the past session, Bender charged, when the rural members of the legislature succeeded in passing the increased gas tax bill over the opposition of city members. Bender charged that the rural districts will benefit most by this 1-cent increase.

RAIL CROSSING IS CONDEMNED

State Highway Department to Eliminate Scene of 19 Deaths Near Bellevue

COLUMBUS, O, April 9—Plans for eliminating the new grade crossing near Bellevue, Huron-co scene of the fatal accident which resulted in the deaths of 19 persons a few months ago, were announced today by the state highway department

The accident occurred when a Lake Shore Electric railway car hit a motor bus.

The plans announced by the highway department contemplate the relocation of state route 18 so as to eliminate from the highway two grade crossings one where the accident occurred and another in Bellevue.

The work of relocating this portion of the highway is expected to begin within the next two months. It is estimated to cost approximately $70,000 of which the railroads will be epected to pay 50 per cent, Huron-co 25 per cent and the state 25 per cent. The Lake Shore, the New York Central and the Wheeling & Lake Erie railroads are involved in this program.

Liberia

The population of Liberia is entirely of the African race; about 100,000 of the dwellers along the coast may be considered civilized The number of American negroes is estimated at 20,000 Liberia was founded in 1822 when a settlement was made at Monrovia by negro freedmen from the United States with the assistance of American colonization societies It was declared a free and independent republic on July 26, 1847. Its constitution is modeled on that of the United States. Electors must be of negro blood and owners of land

Famous Violin Maker

Antonio Stradivarius was born at Cremona in 1644. He is recognized as the greatest violin maker. His first instruments were made between 1670 and 1685. About 1685 he began developing his own original type, later so much used as a model by other violin makers. His best original work is said to have been accomplished between 1690 and 1737. He died in 1737 at Cremona.

Early Flying

The first comprehen[illegible] tion of the laws gover[illegible] than air flying, exper[illegible] gliders, was made by Sir [illegible] Cayley, an English scientist, [illegible] series of magazine articles [illegible] and published in 1809 and 1810, though he produced several cra[illegible] airplanes and helicopter models to illustrate his theories, there is no record that he ever achieved any measure of success with them.

RITES WEDNESDAY

Funeral services for Mrs. Clara Karshner, who was found dead in bed at her home Monday, will be held Wednesday afternoon at 2:30 p. m. at the home, 301 E. High-st, and will be in charge of Mader and Ebert. Rev. G. J. Troutman will preach the sermon. Burial will be in Forest cemetery.

WILLIAMSPORT

Mrs. Eugene D. Alkire and Mrs. Carl Hurst delightfully entertained with a bridge party at the home of the former on Wednesday evening. There were seven tables of players. At a late hour a delicious lunch was served. Deep red roses in crystal bud vases were used as the centerpiece at the tables. In their serving the hostesses were assisted by Mrs. McCoy and Miss Mary Kathryn Hurst. Out of town guests present were Mrs. Harry F. Alkire and Mrs. Ella Hornbeck of Circleville.

Fred B. Garrison of Clarksburg, was a business visitor in Williamsport on Thursday.

M. W. Newhouse of Columbus, was here Wednesday.

Mrs. Samuel B. Metzger has substituted in the primary grade during the past week, due to the illness of Miss Twila E. West, the teacher.

Charles D. Wright, of Circleville, was a business visitor in Williamsport on Thursday.

Mrs. Ella Hornbeck of Circleville, spent a part of the week with Williamsport relatives.

Mr. and Mrs. Thomas B. Gephart spent Sunday with relatives in Delaware.

Mrs. Maggie Davis had the misfortune to fall from a ladder on Wednesday morning, fracturing her hip. She was taken to White Cross hospital, Columbus, in the Samuel B. Metzger invalid coach.

Mrs. Harry McGhee and daughter Betty, have returned home after spending several weeks in Greenfield.

The second birthday party of the year will be held in Heber Chapter No. 62, Order of Eastern Star, on Thursday evening, April 11, following regular chapter. There will also be initiation at this time. Members having birthdays in March, April and May will entertain.

Heber Chapter No. 62, Order of Eastern Star, is invited to attend the public installation of the White Shrine, at Chillicothe on next Tuesday evening.

The William Betts family left Williamsport this week, moving to Columbus.

H. White Campbell, Howard Smith, Russell Wardell and C. E. Hill attended Masonic inspection at Mt. Sterling on Thursday evening.

W. F. M. S. MEETING

The April meeting of the Women's Foreign Missionary Society was held at the home of Mrs. W. C. Dyer in Laurelville on Thursday afternoon, April 4th. Nineteen members were present. Additional missionary members of Adelphi and Laurelville were present, making the attendance near forty. Mrs. George Hamman Sr. was leader of the meeting; Mrs. Emma Wiggins had charge of the devotional. The opening song was, "The King's Highway." Mrs. Vaughn, the president of the Laurelville and Adelphi society, gave the "welcome" remarks. There was a vocal solo by Mrs. Earl Dent, and a vocal duet by Mrs. John H. Dunlap and Mrs. Thomas B. Gephart, their accompanist being Mrs. Dent. Miss Frances McClelland of Laurelville, also sang.

The topic for the day was "Prayer," and Mrs. John H. Dunlap read from Mr. Gordon's book on "Prayer." Mrs. John L. Hunsicker had charge of the "Mystery Box," with various members responding.

At the close of the meeting a delightful two course lunch was served by Mrs. Dyer and her assisting hostesses. The meeting was not only interesting in its purpose, but also it proved to be a delightful affair socially, by the mingling of the two organizations.

The M. E. Sunday school held a party in the Parish house on Friday evening, April 5. The occasion was to honor members of the Sunday school who were not absent during last quarter. There was a spelling bee which afforded much interest, Mrs. John H. Dunlap winning first honor. Close opponents were Mrs. Clarence Swearingen and Miss Alice Tipton. A number of games furnished amusement for the children. The program of games was under the leadership of Mrs. Earl Dent. Delicious refreshments in one course, were served late in the evening. The honor guests, numbering about twenty, occupied a special table, around which the remaining assemblage was seated. About 100 were present to enjoy the occasion.

W. C. Dyer, of Laurelville, was a Saturday visitor in Williamsport.

The April meeting of the Sorosis Club will be held at the home of Miss Elizabeth Whitten on Monday evening, April 15. Miss Mildred Darrah and Miss Mary White will assist the hostess, and Mrs. Earl Dent has charge of the program.

The W. C. Dyer family who have spent the past few months in Laurelville, expect to return to their home here the latter part of April.

Richard Metzger of the United States navy stationed at Norfolk, Va., arrived home on Monday, for a visit with relatives. He was accompanied by a friend.

Mr. and Mrs. G. P. Hunsicker attended a home-coming at the home church of the latter, in Columbus, on Sunday.

Mr. and Mrs. Andrew Schwarz Jr. and son Paul of Columbus were week-end guests of Mr. and Mrs. Andrew Schwarz Sr.

Mr. Shannon Jones of Kingston attended services at his home church here on Sunday.

Mr. Turney Owens and family motored to the White Cross hospital, Columbus, Sunday, to call upon their neighbor, Mrs. Maggie Davis, who is confined there with a broken hip.

Miss Mary Ellen Caudy of Columbus was a week-end guest of her mother Mrs. Ethel Caudy.

Mr. and Mrs. Ben Zimmerman of Martin's Ferry, visited a part of last week with Mr. and Mrs. Harry West and family. Mr. and Mrs. Zimmerman were en-route home after spending a few months in Florida.

Mrs. William Zeigler, a teacher at the Girls Industrial school near Delaware, spent the past week with her parents, Mr. and Mrs. Isaac Ater, it being the Easter vacation.

Mr. and Mrs. Geo. P. Hunsicker expect to start Thursday on a motor trip to Columbia, Missouri. Thep expect to be away about one week or ten days.

Mr. and Mrs. David C. Stonerock and Mr. and Mrs. Robert Edge of Washington C. H., attended the funeral services of the late John Stonerock, held at the M. E. church on Sunday afternoon.

Materialistic

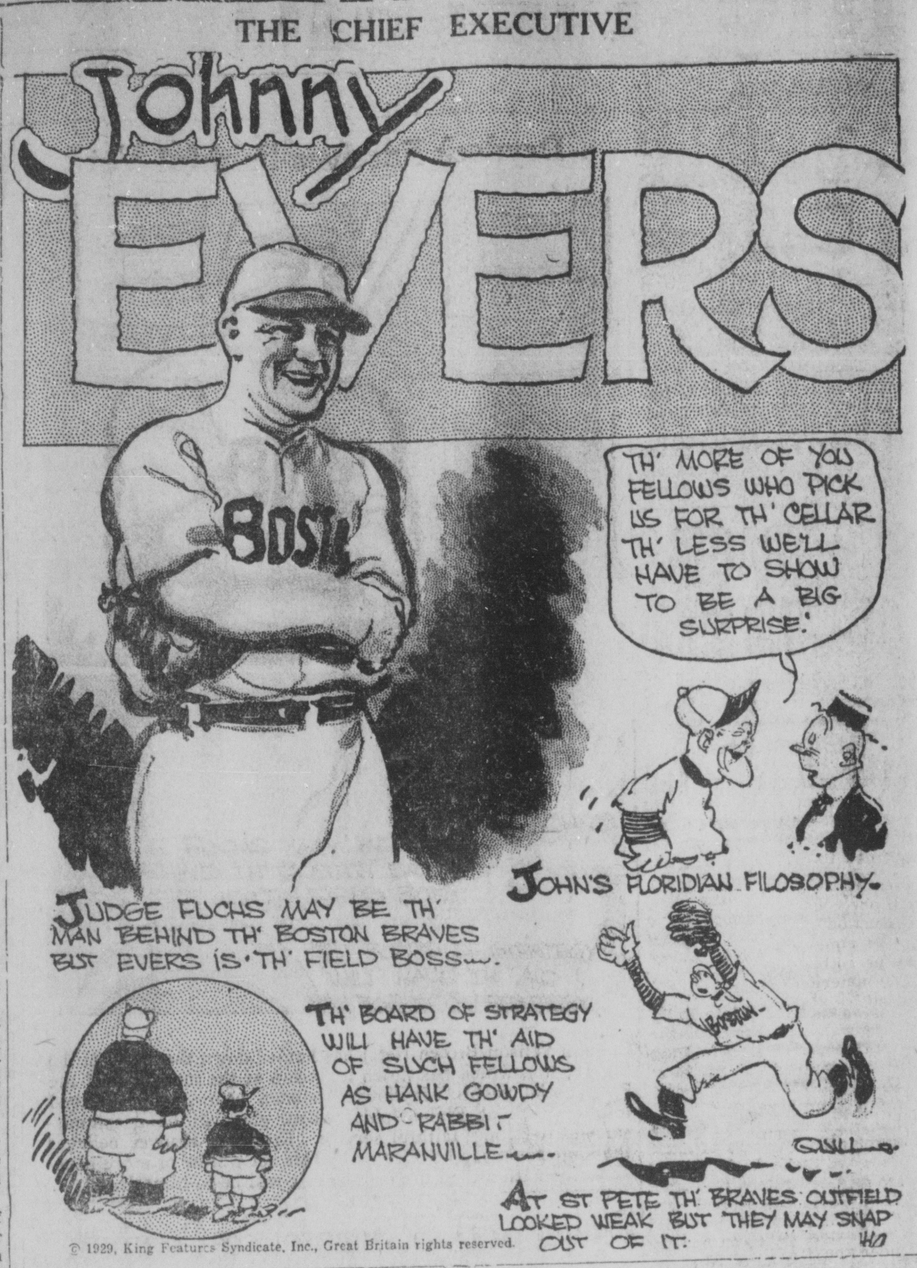
Mrs. J. had become weary of the noise that accompanied the play of her two young sons, especially since there seemed to be indications that a slight quarrel was developing.

"Boys," she cried in desperation, for she had been troubled with a headache all day, "if you do not stop quarreling, mother may get sick and die, and then what will you do?"

The boys stopped suddenly to consider the effects of such a tragedy.

"I know what I should do," volunteered Jim. "I should go to Aunt Jane's, because she has such good peach preserves."

"I shouldn't," disagreed Charles. "I should go to Aunt Helen's, for I like strawberry jam better."



Investment in Pearls Brought Rich Returns

Some years ago a woman received as one of her Christmas presents a pearl necklace from her husband. Not being in opulent circumstances, he was unable to spend more than $25 for them, but their luster pleased his wife, however, and for some years she wore them many, many times until recently the string broke and she carried them to the same jeweler to be restrung.

She had hardly reached her home when she received a telephone call from the senior partner of the firm, who asked her to call the next morning. To her amazement, she found that what she thought were excellent imitations were the real thing and valued at about $5,000. They had been sold by an inexperienced salesman, it appeared.

Leaving the jewels she returned home and several days later was the recipient of a letter from the jeweler containing a check for $1,000 and a box containing another string of pearls worth three or four times as much as the original price paid for her first necklace.—Springfield Union.

Many Uses for Honey

Throughout the ages honey has had all sorts of uses. The Greeks especially prized the honey of Hymettus, although Mahaffy said he could get better on the heather hills of Ireland, says the New York Times. A favorite drink of Chaucer's time was wine mixed with honey and spices. Hindus put a drop of honey in the mouth of a new-born male infant.

Wanted Her Change

A woman traveling northward from Banbury pulled the communication cord when the train had left the station some distance. The train was stopped, and when the guard made inquiries the woman stated that she tendered a boy sixpence for an apple on Banbury station platform and wanted her change.—London Tit-Bits.

"Childhood" Tuberculosis

Issued by Ohio State and Local Public Health Associations

4—Rest

Rest is the most important element in preventing lung-gland tuberculosis from developing into lung tuberculosis. Any boy or girl who is discovered to have the "childhood" type of tuberculosis should be at once removed from the source of infection. Then the fact that he has a special health problem to face should be frankly recognized.

All such children should have rest periods morning and afternoon. They should sleep at least ten hours every night. A scientific diet should provide nourishment to fit their needs. School work should be lightened for them. They must not take part in competitive athletics, and their play and exercise should never be carried to the point of fatigue.

With these precautions their chances for normal health are excellent. Otherwise, they are in constant danger of developing pulmonary tuberculosis.

"EARLY DISCOVERY;
EARLY RECOVERY."

KINGSTON

Mrs. Fannie Goth and Mrs. Minerva Funk were the guests of Mr. and Mrs. Newton Imler, near Tarlton, from Friday until Monday.

Mr. and Mrs. George Brundige and Miss Frances Brundige visited at the home of Mrs. Effie Brundige on Saturday.

Mrs. Walter Johnson and son Eugene and Mrs. John Carmean were the week-end guests of Mr. and Mrs. Charles Roby.

Born to Mr. and Mrs. Charles Chaffin on March 27, a daughter, Patty Lou.

Melvin Yaple of Sandusky, was the guest of relatives last week.

Mr. and Mrs. John Sommers, Mr. and Mrs. Joe Bush and daughter, Mary Annice, were the guests on Sunday of Mrs. Annice Buchannan at Hallsville.

Miss Mary Gardner spent Sunday in Columbus the guest of her aunt, Mrs. George Thurer and family.

Donald Smith of Columbus, spent the week-end aat the home of Mr. and Mrs. M. H. Buchwalter. On Sunday Miss Margaret Schaffer of Columbus arrived to spend the day with Mr. Smith and other friends at Hallsville.

Miss Katherine Evans of Cincinnati, will spend a week's vacation with her parents, Mr. and Mrs. W. L. Evans.

Prolific Sturgeons

The various species of fish produce varying amounts of eggs. The Atlantic salmon (Salmon salar) averages 1,426 per fish, while the sturgeons average 1,680,000 eggs per fish.

Nugget of Wisdom

Three-fourths of the miseries and misunderstandings in the world will disappear if we step into the shoes of our adversaries and understand their viewpoint.

Change of Stance May Help Wallop

When Phil Todt (above) broke in with the Red Sox he was a skilled outfielder and a bad actor at bat, but, after Joe Harris was hurt and Phil had to break in in the initial sack, his efforts to learn the new position hurt his batting. Now Phil is one of the leading first sackers in the game, but decidedly an in-and-outer when it comes to walloping the horsehide. This makes Phil go to work on his hitting or lose out to Jerry Standaert, the Belgian player who packs a mean and regular sock with the bat.

Flemings in England

Flemish weavers were first established in England by Henry I in Pembrokeshire at the beginning of the Twelfth century, and they seem constantly to have come to England after that time. In Edward III's reign immigration was stimulated when the king offered special rights to the Flemish on condition that they teach Englishmen their trade. Later, in the Sixteenth century, the religious troubles resulted in a substantial emigration of Flemish weavers to England. These immigrants played an important part in the birth of the English woolen industry.

Renovating Engravings

Yellow stains on the margins of engravings can often be removed by using a solution of hydrochloride of soda, which is also known as Labarraque's solution.

Frigid Average

The coldest town in the British isles is Braemer, which has an average yearly temperature only 11.3 degrees above freezing. It is the only town where February temperature averages below freezing point.

Tell Age by Scars

In the Botanic gardens, Regent's park, London, is a remarkable tree known as the "Kaffir Bread" plant. More than 1,000 years old, it is not, however, a native of Great Britain, having been imported from South Africa a few years ago. Nor is it very big. At its widest point the trunk is only 15 inches in girth, and the tree is barely ten feet high, yet it is known by the formidable name of Encephalartos Altensteinii.

How can its age be told? This is done by comparing the number of leaf scars which cover the trunk with the number of fronds produced each year.

Rhone's Rapid Current

Probably the most rapid river in the world, with the exception of some small streams which are merely torrents or cataracts, is the River Rhone, in France. At some seasons the current of this stream reaches a speed of forty miles an hour. In the drier seasons, however, it drops to a rate of six miles an hour.

SPINAGO The Tonic That Contains SPINACH

Hospital Treatment Fails—Spinago Brings Health

Said Mrs. Jay Henry, who has resided in Circleville for 22 years at 586 E. Franklin-St.

Mrs. Jay Henry and many others have found that Spinago has quickly and efficiently driven away pain caused by chronic ailments of many years standing such as stomach, liver and Bowel complaint, Indigestion, Dyspepsia, Rheumatism, Neuritis, Constipation, and as a Spring Tonic it is hard to surpass.

Doctors know the value of Spinach as a food and now you can take Spinach in concentrated form and at the same time reap the benefits of a carefully selected assortment of purely vegetable juices all of which are contained in Spinach.

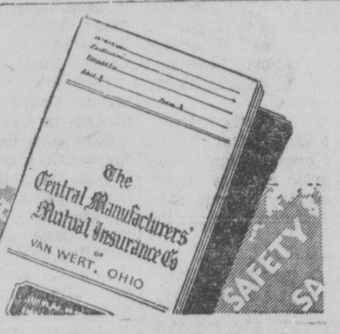
53 Years of Service
What They Mean to You



THIS more-than-a-half-century of service (since April 7, 1876) means Stability—the assurance that your policy with the Central Manufacturers Mutual Insurance Company is the pledge of one of America's strongest insurance organizations. It is a guarantee of Complete Protection, Fair Settlement, Prompt Adjustment, and Speedy Payment of Claims.

These are abundant reasons for placing your insurance exclusively with the Central. Yet we add the saving in Central's dividend to policyholders (30% for the past eight years). This actual reduction in your insurance cost is conclusive evidence that a Central policy delivers maximum protection at minimum cost.

Mr. and Mrs. Paul Morris, our genial baker, will move to Dayton, O., this week and Miss Anna Wagner will move to her home on Ing-st.

Mr. and Mrs. Fred Newhouse of Circleville, were the guests of Mr. and Mrs. G. L. Holderman on Sunday.

Among the Standard Bearers who attended the convention held at Clarksburg Saturday were, Misses Ruth McCollister, Katie Smith, Isabel Strawser, Isabel Snyder, Louise Raub, Althea Jane Hettinger, Lidabel and Gwendolyn Pugh, Marie Minser, Mary Ford, Ada Merriman and Mrs. F. I. Rittenour and Messrs. Wallace Minser, Glenn Ross and Robert Rittenour. A splendid time was reported.

Miss Evelyn Weeks, the niece of Mr. W. R. Sunderland, returned to her home at Dayton, O., after a week's visit with Miss Ruth J. Rittenour.

Charles Baldoser and Miss Marie Riggin of Nash, were visitors to Columbus on Sunday.

Mr. and Mrs. Will A. Raub of West Jefferson, were the guests over the week-end of Misses Flora and Hannah Raub and Mr. and Mrs. W. A. Raub, Jr.

Mr. and Mrs. Ralph Ackers of Lancaster, visited her parents, Mr. and Mrs. B. E. Moody on Saturday.

Mrs. Violet Foster of Chillicothe, visited Mrs. John Moore on Thursday.

A group of friends of Mr. and Mrs. W. S. Fisher motored to Lewis Center on Sunday to spend the day with them. In the group were Dr. and Mrs. J. P. Gardner, Dr. and Mrs. H. S. Boggs, Mr. and Mrs. George L. Borders and son Lynn, Mrs. H. H. Snyder, Mrs. F. I. Rittenour and Mr. and Mrs. A. Dane Ellis and sons John and Thomas.

The Delta Phi S. S. class will meet at the home of the teacher, Mrs. D. H. Dreisbach.

The Ladies Aid Society of the Methodist Episcopal church postpones the meeting from Wednesday, April 10th to Wednesday, April 17th.

Mrs. Loren Vaughn nad children, Edwin and Mary of Columbus, were the guests of Mr. and Mrs. Will Kreisel and family from Friday to Sunday.

Misses Agnes, Helen and Rosemary Gatten of Columbus, visited from Friday until Sunday with their grandparents, Mr. and Mrs. John Merriman. Mr. and Mrs. Gatten were the guests on Sunday at the Merriman home.

Miss Mary Gardner spent Sunday in Columbus the guest of her aunt, Mrs. George Thurer and family.

Donald Smith of Columbus, spent the week-end aat the home of Mr. and Mrs. M. H. Buchwalter. On Sunday Miss Margaret Schaffer of Columbus arrived to spend the day with Mr. Smith and other friends at Hallsville.

Miss Katherine Evans of Cincinnati, will spend a week's vacation with her parents, Mr. and Mrs. W. L. Evans.

Prolific Sturgeons

The various species of fish produce varying amounts of eggs. The Atlantic salmon (Salmon salar) averages 1,426 per fish, while the sturgeons average 1,680,000 eggs per fish.

Nugget of Wisdom

Three-fourths of the miseries and misunderstandings in the world will disappear if we step into the shoes of our adversaries and understand their viewpoint.

Change of Stance May Help Wallop

When Phil Todt (above) broke in with the Red Sox he was a skilled outfielder and a bad actor at bat, but, after Joe Harris was hurt and Phil had to break in in the initial sack, his efforts to learn the new position hurt his batting. Now Phil is one of the leading first sackers in the game, but decidedly an in-and-outer when it comes to walloping the horsehide. This makes Phil go to work on his hitting or lose out to Jerry Standaert, the Belgian player who packs a mean and regular sock with the bat.

Flemings in England

Flemish weavers were first established in England by Henry I in Pembrokeshire at the beginning of the Twelfth century, and they seem constantly to have come to England after that time. In Edward III's reign immigration was stimulated when the king offered special rights to the Flemish on condition that they teach Englishmen their trade. Later, in the Sixteenth century, the religious troubles resulted in a substantial emigration of Flemish weavers to England. These immigrants played an important part in the birth of the English woolen industry.

Renovating Engravings

Yellow stains on the margins of engravings can often be removed by using a solution of hydrochloride of soda, which is also known as Labarraque's solution.

Frigid Average

The coldest town in the British isles is Braemer, which has an average yearly temperature only 11.3 degrees above freezing. It is the only town where February temperature averages below freezing point.

Tell Age by Scars

In the Botanic gardens, Regent's park, London, is a remarkable tree known as the "Kaffir Bread" plant. More than 1,000 years old, it is not, however, a native of Great Britain, having been imported from South Africa a few years ago. Nor is it very big. At its widest point the trunk is only 15 inches in girth, and the tree is barely ten feet high, yet it is known by the formidable name of Encephalartos Altensteinii.

How can its age be told? This is done by comparing the number of leaf scars which cover the trunk with the number of fronds produced each year.

Rhone's Rapid Current

Probably the most rapid river in the world, with the exception of some small streams which are merely torrents or cataracts, is the River Rhone, in France. At some seasons the current of this stream reaches a speed of forty miles an hour. In the drier seasons, however, it drops to a rate of six miles an hour.

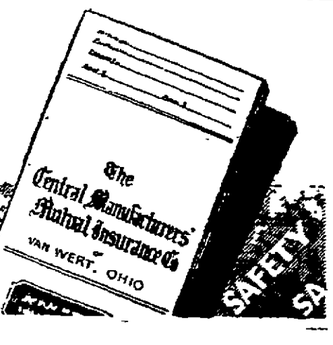
53 Years of Service

What They Mean to You



THIS more-than-a-half-century of service (since April 7, 1876) means Stability—the assurance that your policy with the Central Manufacturers Mutual Insurance Company is the pledge of one of America's strongest insurance organizations. It is a guarantee of Complete Protection, Fair Settlement, Prompt Adjustment, and Speedy Payment of Claims.

These are abundant reasons for placing your insurance exclusively with the Central. Yet we add the saving in Central's dividend to policyholders (30% for the past eight years). This actual reduction in your insurance cost is conclusive evidence that a Central policy delivers maximum protection at minimum cost.

A Country Editor

IN AND ABOUT THE STATE HOUSE

A Department of News Service And Cooperation for Herald Readers

To Herald Readers:
The writer is a Country Editor whose duties at the State House afford him opportunity to write of happenings and conditions in and about the Capitol which should prove of especial interest to The Circleville Herald readers.

A feature of this department, through special arrangement between The Herald and the Department of Agriculture, is that readers may feel free to address inquiries and communications touching on matters connected with any governmental activities in the Capitol to The Herald, Care Department of Agriculture, Columbus, Ohio.

Editor, The Herald:—

It's all over but the shouting and the Legislature and Senate are closing up shop, with Columbus papers calling it "the best Legislature in years." It is going to be somewhat lonesome around the State House without the lawmakers. Still we'll have the position seekers with us. The reception rooms of the governor's office and those of his cabinet members are full of people nearly every hour of the working day. Many callers are seeking preferment — some merely to pay their respects. The "big men" are anxious to see all of them, but only those behind the scenes can appreciate what a strain and handicap this feature of official duty imposes.

* * *

A number of Legislators found notes on their desks last Monday reading: "Call Mr. Graves, Adams 8651." A number of them made for phones, only to discover that they were calling the cemetery—on April 1st.

* * *

Better conditions for the farmers of Ohio this year are predicted by Perry L. Green, Director of the Department of Agriculture "My opinion, based on observation statistics and the expressions of farmers generally from all parts of Ohio, is that a more hopeful attitude is prevailing and economic conditions are better than they were a year ago," is the way he puts it.

* * *

Expressed in figures a long list of farm commodities shows 140 per cent for the first quarter of 1929 compared with the same period of 1914. It is three points higher than March 15, 1928, and 14 points higher than March, 1927. In other words, farm products are now 40 per cent higher than the average of four years just preceeding the World war.

* * *

Director of Agriculture, Perry L. Green, Portage-co, is something of a weather prophet, in that mysterious way that men who farm seem able to forecast the meterological future from various homely manifestations of nature. Incidentally, he likes lightning.

* * *

During the recent spring weather, the director saw a flash or two of lightning shoot across a lowering sky.

* * *

"I certainly like that," he remarked.. "That means an early spring."

* * *

O. J. Bailey, chief of the Food and Dairies Division, advises the public to watch carefully the weight of food stuffs. A statewide campaign is being waged to restore vigilance in the matter of sanitation of food supply houses and dairies. Mr. Bailey also warns the public in regard to the purchase of so-called "maple syrup" from strange or unreliable people. This product is very often adulterated and is not properly labeled. Infractions of the law in this respect should be reported to the Foods and Dairies Division at Columbus.

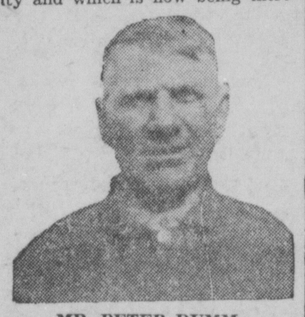
* * *

If we can be of service here in the State House to any reader of this paper, write us—Care, Editor, Department of Agriculture, Columbus, Ohio.

LOCAL MAN FINDS NEW HEALTH THRU HOYT'S COMPOUND

Circleville, Ohio, Man Is Victim of Rheumatism and Kidney Trouble — Now Like New Man.

The latest local resident to endorse Hoyt's Compound is Mr. Peter Dumm, who resides at 226 Logan St., Circleville, O. This is the famous prescription that has brought new health to so many residents of Circleville and vicinity and which is now being introduced every day at Wilder's Drug Store, this city. Since Hoyt's was first introduced in this vicinity many hundreds of bottles have been sold here and the sales are increasing every day. At first everyone was skeptical about this new medicine, since it is the first time that it was ever introduced here, but after a few of the local people had tried Hoyt's and found that the ads which were published here were not mere promises but facts which had been proven in other cities where Hoyt's had been introduced, they quickly began taking it and finding out for themselves. So many local residents have endorsed this medicine that it would be impossible to publish all of their statements, so we are picking out some of the most remarkable cases and publishing their statements every day. The latest resident of this vicinity as stated above, to come to the front for Hoyt's is Mr. Peter Dumm, who is past 60 years of age and who has lived near Circleville his entire life. Mr. Dumm was a butcher by trade and due to his activity in that line has made many friends in this territory. He was a victim of rheumatism which steadily grew worse until it was impossible for him to even raise his arms. He also suffered from indigestion and gas pains which started after each meal, and turned his stomach into a mass of gas. Then he heard about the Hoyt's Compound and started taking it. He found at once that what others said about Hoyt's was entirely true. His own statement follows:



MR. PETER DUMM.

"I have been a resident of this vicinity all my life," said Mr. Dumm. "A great many years I worked as butcher but the last few years I have been inactive due to my age and my ailments which I will describe. I was a great victim of rheumatism which set in my shoulders and grew steadily worse until I was unable to raise my arms. Gas formed on my stomach after each meal and it seemed like everything I ate just turned into a mass of gas, from which I suffered extremely at times. Deranged kidneys broke my rest many times each night and made life very miserable for me. I heard about Hoyt's Compound and decided to try it. I purchased two bottles and from the first few doses I began to get relief. I have now taken three bottles and the rheumatism is entirely gone and my stomach is in a greatly improved condition. I now have a good appetite and am no longer troubled with gas forming after meals. I sleep soundly every night, in fact I now feel like a new man entirely, thanks to Hoyt's Compound."

Hoyt's Compound is being introduced daily at Wilder's Drug Store, Circleville, Ohio.—Adv.

OBITUARY

Arthur Owen Talbut, son of Alphonso and Sarah Rhoads Talbut, was born in Madison-twp, Pickaway-co., Ohio, Dec. 13, 1869, and departed this life at his home in Circleville, O., April 2, 1929, at the age of 59 years, three months, and 19 days. In early infancy he was dedicated to the Lord in holy baptism and at the age of 14 years was confirmed a member of the Evangelical church at St. Paul, O., later transferring his membership to the Lutheran church of Circleville, O. To his early confirmation vows he remained faithful unto death.

"Be thou faithful unto death and I will give thee a crown of life."

Quiet and unassuming in manner, just and honorable in all his dealings with his fellowmen, he was a man who made no enemies and lost no friends.

On Feb. 14, 1908, he was united in marriage with Mary Ward. This union was blessed with two children, a son, dying in infancy and a daughter, Clarissa, at home. Besides his wife and daughter he leaves to mourn his departure an only sister, Mrs. Geo. W. Runkle.

He was a devoted husband, a kind and indulgent father, a loving brother and a true friend and he will be sadly missed, not only by those near and dear to him, but also by many friends. His last illness, though prolonged and severe was borne without a murmur and quietly and peacefully, at the dawning of a new day, hand in hand with his Savior he passed through the valley and entered into his rest.

Tho we shall miss him, yet we bow in humble submission and say Thy will not ours, O Lord be done.

'Tis Heaven that whispers "dry thy tears the pure in heart shall meet again."

How to Play BRIDGE

Series 1928-29 by **Wynne Ferguson**

Author of "PRACTICAL AUCTION BRIDGE"

Copyright 1928, by Hoyle, Jr.

ARTICLE No. 36

One of the difficulties that besets the average bridge player is the proper play of the hand when only a few cards remain: that is, the so-called "end plays". Here is one that was submitted recently and is given as an example because it contains a principle that occurs very frequently:

	Hearts — 8 Clubs — A, Q, 8 Diamonds — 10 Spades — 10, 7	
Hearts — 10, 9, 3 Clubs — 10, 5, 4 Diamonds — J Spades — none	: Y : : A B : : Z :	Hearts — none Clubs — K, J, 7, 3 Diamonds — Q Spades — 9, 8
	Hearts — J Clubs — 9, 6, 2 Diamonds — none Spades — Q, J, 6	

Spades are trumps and Z is in the lead. How can he play the hand so that he will win six of the seven tricks against any defense?

The end play consists in first taking out all of B's cards, except clubs, so that when that suit is led, B will be forced to win the trick and lead back the same suit. This type of end play is called "stripping" the hand or the "elimination" play.

Solution: Z should first lead two rounds of spades, winning the second spade trick in Y's hand with the ten of spades. Y should then lead the ten of diamonds and Z should trump with his last spade. Z should then lead the jack of hearts, on which B should discard the seven of clubs. Z should then lead the deuce of clubs and A should play the ten of clubs, Y the queen and B should win the trick with the king of clubs.

What can B now lead except the trey of clubs? Y Z must win the next two tricks. By taking out all of the cards in B's hand, except clubs, Z has been able to force B in the lead to his disadvantage. If A played a low club, instead of the ten spot, Y should play the eight of clubs; and the result would be the same. Be on the lookout for such plays, for the opportunity to make them occurs frequently enough to make this knowledge well worth while.

Answer to Problem No. 36

	Hearts — J Clubs — 7, 5, 4, 3, 2 Diamonds — Q Spades — Q, 7	
Hearts — 4 Clubs — J, 10 Diamonds — J, 10, 7, 5 Spades — 9, 4	: Y : : A B : : Z :	Hearts — 10 Clubs — K, 6 Diamonds — 9, 3 Spades — K, 10, 8, 3
	Hearts — none Clubs — A, Q, 9, 8 Diamonds — none Spades — A, J, 6, 5, 2	

If hearts are trumps and Z is in the lead, how can Y Z win eight of the nine tricks against any defense?

Z should lead the ace of clubs. B has two plays: *First*, he can play a low club. If he does, Z leads the nine of clubs, forcing B in the lead. B must now lead either a heart, a diamond or a spade. If he leads the heart, Y wins the trick and leads out the queen of diamonds and on these two tricks Z should discard his two remaining clubs. Y's clubs are now good and he should lead them out. Z discards three low spades. Y should now lead the queen of spades and no matter what B does, Y Z must win two spade tricks.

Suppose B at trick three leads a diamond. Y wins the trick and should lead the jack of hearts, Z discarding his two clubs as before. The play results the same.

In case that B leads a low spade at trick three, Z should play low and allow Y to win the trick with the queen. Y should now play the jack of hearts and queen of diamonds and Z should discard his two clubs. If at trick three, B should lead the king of spades, Z should win the trick and put Y in the lead with the queen of spades at trick four. Y should then lead the jack of hearts and queen of diamonds as before, and the play is the same. Played in this way, therefore, Y Z must win all of the tricks but one

Second: Suppose that when Z leads the ace of clubs, B should play the king of clubs so that he cannot be forced into the lead at trick two. This is B's best defense and makes Z's play more difficult. Z should now lead the jack of spades and B's best play is to refuse to win the trick. If B does win the trick with the king of spades, and returns a club, Z will make his queen of clubs, enter Y's hand with the queen of spades, and proceed as before, giving Z two club discards. If B returns a heart, diamond or spade, Y will win the trick, and Z will discard his two losing spades on Y's jack of hearts and queen of diamonds. Z's clubs and ace of spades will take the rest of the tricks.

B's best play is to play the king of clubs at trick one and to refuse to win the second trick with the king of spades. Z should now continue the play as follows: At trick three, he should lead the ace of spades and follow with the nine of clubs, thus forcing A to win the trick with the jack of clubs. A has no defense to this play as he must follow suit. A must now lead either a heart or a diamond which Y wins and is thus again able to give Z two discards of clubs. Y's clubs are now good and Y Z are again able to win all of the tricks but one.

It is an interesting little problem and each variation should be worked out carefully.

BIRTHS

A daughter was born Sunday, April 7, to Elzie and Fannie Row Brooks at their home, 118 W. Corwin-st.

Mr. and Mrs. John D. Bragg, Montclaire-ave, announce the birth of a daughter on Sunday, April 7.

Mr. and Mrs. Bundy Sowers (Marie Turner) of Pontiac, Mich., announce the birth of a son, Sunday, April 7.

Entirely Different

"A parachute looks like an umbrella."

"It's very different," said the aviator. "No sensible airman permits himself to be embarassed in an emergency by the discovery that he has lent his parachute to a friend."

Chasing Woodchucks

The wise farmers, when bothered by woodchucks, resort to one of three methods in thinning them out. They insert either calcium cyanide or carbon disulphide in the chuck's burrow and seal it over. The fume in a short time will penetrate every part of the burrow and Mr. Woodchuck is gassed to death. Another method is that of attaching a hose to the exhaust of a tractor engine or automobile and inserting down into the burrow, sealing the entrance and racing the engine. Carbon monoxide does the rest. Hunting chucks with firearms is a long drawn out job and has never been satisfactory.

Easily Evident

According to the Department of Commerce, the supply of nuts is adequate. Many incidents in the news of the day tend to support the department's finding. — Boston Transcript.

That S-e-l-l-s

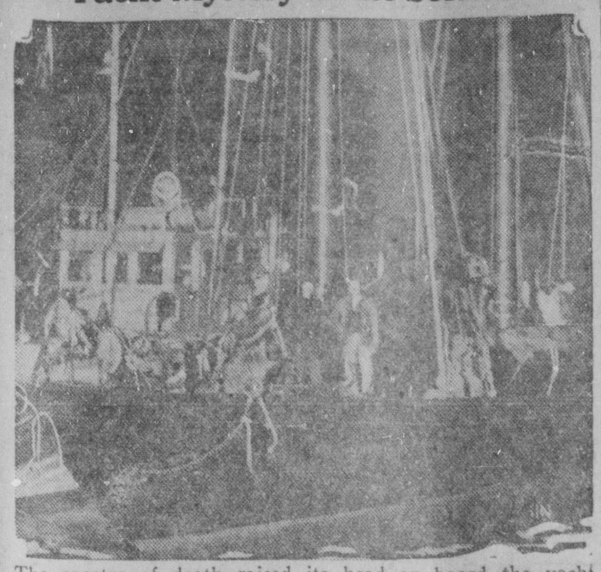
A GOOD printer must do more than merely go through the routine of setting type, inking the roller, etc. He must know how to set up your message so that it will leap out of the paper to capture the reader's eye. So that it will combine emphasis with refined appeal.

We Are Good Printers.

The Circleville Herald

"Builders of Better Printing."

Yacht Mystery Defies Solution



The spectre of death raised its head on board the yacht "Nomad" found adrift off Cape May, N. J. When the Coast Guard boarded the helpless vessel belonging to Leland H. Ross of New York, they found the captain, John L. Schofield, missing and learned that he had been lost overboard during a heavy storm. Guardsmen alleged the crew and owner were found under the influence of liquor and over forty bottles of alleged liquor were rolling around the floor of the cabin. Picture shows schooner arriving at Philadelphia, Pa.

CITY VS. COUNTRY

(Continued from Page One)

However, nothing herein shall be construed to prevent two or more representatives from being elected from one county or district at any one election if in so doing the purpose of equality in representation may be better served."

The amendment provides that the whole population of the state as determined by federal census, shall be divided into 120 equal parts and the quotient shall be the ration of representation in the house. The ration in the senate would be determined by dividing the population by 30 according to the provisions.

At the last session of the legislature, which has just unofficially adjourned, there were 31 senators and 133 representatives.

Under the 1920 census figures Bender claims, the ration of representation would be 47,991 for members of the lower house. This would give Cuyahoga-co 19 representatives instead of 16, Franklin-co six instead of five, Hamilton-co 10 instead of nine, and counties such as Vinton and Wyandot would be joined with other counties to obtain a representative in the lower house.

COUNTIES EFFECTED

There are 64 counties, under the 1920 census, which have less than 47,991 population. They include: Ashland, Auglaize, Champaign, Coshocton, Crawford, Defiance, Delaware, Erie, Gallia, Hardin, Logan, Marion, Pickaway, Portage, Preble, Sandusky, Seneca, Shelby, Union Van Wert, Vinton, Wasington, Wayne, Wood and Wyandot.

This unequal representation was emphasized in the past session, Bender charged, when the rural members of the legislature succeeded in passing the increased gas tax bill over the opposition of city members. Bender charged that the rural districts will benefit most by this 1-cent increase.

Of Brazilian Origin

The name petunia is taken from petun, a Brazilian name for tobacco, to which the petunia is allied.

LEG IS FRACTURED DURING RUNAWAY

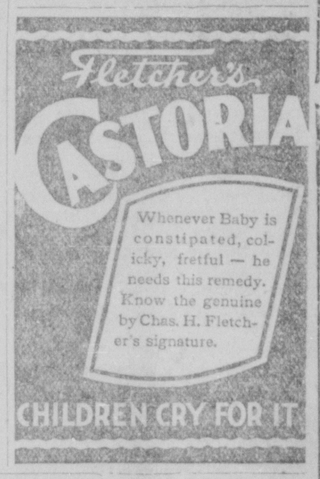
Ross Seymour, 18, son of George Seymour, Jackson-twp, suffered a broken leg Monday afternoon when he was thrown while trying to stop the runaway of four horses hitched to a drag in a field. His left leg was broken below the knee. Dr. D. V. Courtright reduced the fracture.

MAN IS FOUND ILL

Leonard Dennis, of Corning, O., was found at the Justus Store near Stoutsville recently in an unconscious condition. Sheriff Sesler was called and took the man to the Fairfield-co jail temporarily. He is said to be in poor physical condition and often falls unconscious. He was looking for work when taken ill.

Recipe for Beauty

Kindness can become a habit with you, just as grouchiness can become a habit. It pays sometimes to stop and think a minute and check up on your habits and see if they are what you really intend them to be. Kindness is a habit that will make you happier, yes, prettier for it will soften the lines of your face.—Our Sunday Visitor.



A bank account for every member of the family—and the financial future of each is assured

"At the Clock on the Corner"

RAIL CROSSING IS CONDEMNED

State Highway Department to Eliminate Scene of 19 Deaths Near Bellevue

COLUMBUS, O., April 9—Plans for eliminating the new grade crossing near Bellevue, Huron-co scene of the fatal accident which resulted in the deaths of 19 persons a few months ago, were announced today by the state highway department.

The accident occurred when a Lake Shore Electric railway car hit a motor bus.

The plans announced by the highway department contemplate the relocation of state route 18 so as to eliminate from the highway two grade crossings, one where the accident occurred and another in Bellevue.

The work of relocating this portion of the highway is expected to begin within the next two months. It is estimated to cost approximately $70,000 of which the raidroads will be epected to pay 50 per cent, Huron-co 25 per cent and the state 25 per cent. The Lake Shore, the New York Central and the Wheeling & Lake Erie railroads are involved in this program.

Liberia

The population of Liberia is entirely of the African race; about 100,000 of the dwellers along the coast may be considered civilized. The number of American negroes is estimated at 20,000. Liberia was founded in 1822, when a settlement was made at Monrovia by negro freedmen from the United States with the assistance of American colonization societies. It was declared a free and independent republic on July 26, 1847. Its constitution is modeled on that of the United States. Electors must be of negro blood and owners of land.

Famous Violin Maker

Antonio Stradivarius was born at Cremona in 1644. He is recognized as the greatest violin maker. His first instruments were made between 1670 and 1685. About 1685 he began developing his own original type, later so much used as a model by other violin makers. His best original work is said to have been accomplished between 1690 and 1737. He died in 1737 at Cremona.

Early Flying Enthusiast

The first comprehensive explanation of the laws governing heavier-than-air flying, especially with gliders, was made by Sir George Cayley, an English scientist, in a series of magazine articles written and published in 1809 and 1810. Although he produced several crude airplanes and helicopter models to illustrate his theories, there is no record that he ever achieved any measure of success with them.

3-2t.

First English Bible

John Wycliffe, first man to translate the Bible into English, was sixty years old when he finished his task. The work belongs to the final period of his life, that time during which he was greatly persecuted by both the church and state. The Wycliffe version was addressed to the entire English people, high and low, rich and poor. This is proved by the character of the copies that have survived. About thirty of these remain and some are large folio volumes, handsomely written and illuminated in the best style of the period. Others are plain copies of ordinary size for private persons or monastic libraries. —Detroit News

What an Educator Knows

According to a local educator, we do not know how to converse. "Most of us," says he, "deal in trivialities. Listen to the average conversation on the busses and cars. 'I said' and 'he said' are repeated until one wonders if the race has really progressed as much as advertised. If a stenographer could be engaged to take down the conversation of three or four men the printed lines would be ridiculous."—Washington Star.

NOTICES

NOTICE

Special meeting C. A. C. Tuesday evening at 8 o'clock. By order of President Joe Lynch. 13-2t.

USE OF ACID MILK IN INFANT FEEDING

Dr. Copeland's Opinions Regarding the Use of Acidified Milk for Youngsters Who Do Not Thrive on the Ordinary Bottle Mixtures.

By ROYAL S. COPELAND, M. D.
United States Senator from New York.
Former Commissioner of Health, New York City.

THERE are almost endless problems associated with the feeding of babies. The breast-fed youngster is lucky. If there is an abundant supply of mother's milk of good quality, the baby thrives and is well. Otherwise the household is upset.

DR. COPELAND

At least once a month you read my comment that the mother-job is the hardest job in the world. It is a satisfying job, but it is none the less trying on that account.

Worry, watchful care, attention to detail, promptness and everlasting demands make the raising of the baby an anxious and wearing period in a woman's life. But it is only by the application of all these attentions that the infant's health can be safe-guarded.

The bottle-fed infant is a special problem. It is a problem to the doctor and nurse, as well as to the mother.

Cows' milk is physically and chemically different from human milk. To make the former at all suitable for baby's digestion, it must be "modified." It must be diluted and otherwise treated to adapt it to the infant's need.

The worst of it is that, with the best of scientific effort, there are children who do not thrive on the ordinary bottle mixtures. For various reasons they cannot digest them.

Because of these experiences there has been much experimentation in recent years to find a satisfactory substitute for the usual combination. Ways have been sought to make cows' milk more suitable for the baby.

One method proposed is to give acid milk, sour milk. This will seem strange if you have not thought about it. But one reason why some infants do not digest the milk as they should is because there is a lack of acid in the stomach juices. To overcome this lack, acid is added to the milk.

If somebody besides an anxious mother should read these lines, it is well to consider the importance of acid milk in certain dyspepsias or indigestions of adults. Many persons have enjoyed great benefits from the taking of buttermilk and similar preparations.

In infant feeding several ways of acidifying the milk have been tried. After long experimentation lactic acid has been decided upon as most satisfactory.

What is lactic acid? It is the acid which is found in ordinary sour milk But it is formed, too, in the fermentation of other substances, and can be made by the chemist. When separated, it is like a syrup in its nature, but it is very bitter to the taste.

Whatever acid is recommended by the doctor, it is added to the milk, drop by drop. All the time the mixture is vigorously stirred to avoid the making of big curds. Any acid placed in milk will cause it to curdle and this is true of lactic acid To prevent the formation of curds of large size the stirring is essential.

To this mixture honey, corn syrup, or corn sugar is added. There results a digestible and palatable mixture.

Mind you—I am not recommending this form of feeding for YOUR baby. Whether this youngster requires acid milk will be determined by your doctor. It is my desire merely, to let you know there are advanced methods in infant feeding, methods intended to overcome fermentation and the other unpleasant effects of ordinary milk. It is not desirable to use acid milk if the usual mixtures agree

There can be no doubt that this system of feeding will relieve the anxiety of an occasional mother. If you think you are one such mother, talk with your doctor.

Answers to Health Queries

L. X. Q.—What would you suggest for eyes that are blood shot?

A.—Have a careful examination, as it is possible you need glasses.

• • •

M. R. K. Q.—What do you advise for blackheads?

A.—Correct the diet, by cutting down on sugar, starches and coffee. Eat simple food and avoid constipation.

• • •

J. S. S. Q.—What will stop a person from drinking excessively?

A.—Chronic alcoholism is a condition very difficult to treat. Withdrawal of alcohol is essential. Place the patient in an institution where he can be watched during the trying period of the first two weeks.

If Bladder-Weakness, Getting Up Nights, Backache, Burning or Itching Sensation, leg or groin pains make you feel old, tired, pepless, and worn out, why not make the Cystex 48 Hour Test? Don't give up. Put it to a 48 hour test. Money back if you don't soon fell like new, full of pep, sleep well, with pains alleviated. Try Cystex today. Only 60c. Sold by Hamilton & Ryan, druggists.

Busy Human Heart

The adult heart—the only organ in the body whose muscles never rest nor sleep during life—makes an average total of 108,000 beats every 24 hours! How does this busy organ find time to "eat" and fortify itself for its arduous labors?

Prof. Y. Kato of the Okayama Medical college, Japan, says in Popular Science Monthly, that nature has provided what he described as little "dinner pails" from which the muscle fibers of the heart are ingeniously "fed." These "pails" are tiny, disklike organs between the muscle fibers, and their duty is to collect food materials from the blood and pass them around to the heart muscles.

Public Auction

I will hold a closing out sale of household goods of Mrs. Susan R. A. Lanman at 519 E. Main St., consisting of beds, chairs, rugs, tables, stoves, dishes, dresser, sewing machine and canned fruit, on

SATURDAY, APRIL 13, 1929, AT 1 O'CLOCK.

O. A. LANMAN, Gdn.

C. G. Chalfin, Auctioneer.
Wayne Hoover, Clerk.

Wills Kept on Record

Lawyers and searchers in titles frequently apply for permission to scrutinize old wills in the records of the New York Surrogates' court, in some cases where the influence of the dead hand is still felt. Often they play a part in resolving title to a piece of property that may have been originally secured from the first Indian resident of Manhattan or granted later by the Dutch or by King Charles or King James.

Absolutely Noiseless

Elderly Gentleman (wishing to rent room)—Yes, this room pleases me, but I notice there's some sort of a manufacturing plant in the rear facing the alley; doesn't it make considerable noise?

Landlady—Oh, no, sir; not at all That's a felt slipper factory

BIBLE THOUGHT

LET US EXAMINE OURSELVES—Sow to yourselves in righteousness, reap in mercy; break up your fallow ground: for it is time to seek the Lord, till He come and rain righteousness upon you.—Hosea 10:12.

PRAYER—Be merciful unto us, O God, enable us to turn from sin unto Thee.

WASTE AT ITS WORST

While he was secretary of commerce, Herbert Hoover did a great deal of useful and important work in showing us how to eliminate waste.

The productivity of our factories and the general level of our prosperity were raised to higher levels when people discovered better ways to use their resources without wasting any of them.

There was one form of waste, however, that Hoover was unable to reach—the costliest, most inexcusable form of all; the waste of brains.

In the April issue of Hygeia, the health magazines of the American Medical association, Donald A. Laird tells how a psychologist recently descended on a group of ordinary day laborers who were busy digging a sewer ditch and gave them intelligence tests.

Most of the laborers showed just about the kind of result you would expect. But three or four of them, to the amazement of the psychologist, proved that they had unusual intelligence. Their brains were keen enough for them to become members of the professions. The marks they got on the tests were about what would be expected, say, of an average good lawyer.

Yet, fitted by nature to work with their brains, they were doing jobs that any ordinary half wit with a husky physique could do just as well as they.

Waste of that kind is waste that hurts the whole nation. It is more serious than waste of oil, of coal, of power, of timber, of soil. Yet it is a matter that seldom gets any attention. We expect it to right itself. We take it for granted that every man will somehow find his way into the place where he can exercise all of his faculties and powers to the best advantage—and carelessly overlook the hundreds and thousands of cases where this fails to happen.

The psychologist who tested these ditch diggers didn't bother to find out why the three or four men of above-the-average intelligence happened to be digging ditches. Probably he wouldn't be much wiser if he had. The thing is not uncommon, and there is a variety of reasons for it. We're fairly familiar with most of them.

Much as we talk about the "glorious opportunities" of our country, the plain fact remains that many, many people never get a fair break. It is a lot of poppycock to say that every man gets just what he is entitled to. Many a perfect dumbell who had the good fortune to be born of wealthy parents is occupying a pleasant, highly-salaried position today while another man, with a brain ten times as good as his, who came from the depths of poverty and misfortune, and never had a chance to develop his latent abilities, is working as a day laborer.

That is the kind of waste that demands checking most of all. Suppose we do waste gasoline, steam, food, electricity, or suchlike things; we are rich, and it won't cripple us. But we are not any too rich in brains. We never can be. And every brain that lies unused when it might have been put to work in the service of the whole nation represents a loss that can never be made good.

No, Panama Hat Isn't From Panama at All

One of life's little oddities is that the country which gives its name to the panama hat doesn't make the hat at all. And the panama isn't a straw hat, properly speaking.

The hats are made from the shredded leaves of a species of small palm which grows almost entirely in countries south of Panama. Ecuador, Peru and Colombia are among the principal producers.

The young leaves are cut, dipped in boiling water and bleached before the women who weave them begin work. The hat is not woven under water, as is commonly believed, although water does play a part in the process. Usually the weavers begin work early in the morning, to keep the shreds from drying and to keep their fingers constantly damp, an essential factor in handling the strips. A weaver will spend as much as three weeks in making a single hat. However, the time is profitably spent since a genuine panama will sell for $50 or more in its native land—and will cost much more before it reaches you.

Canal Zone Line Test of One's Equilibrium

You can buy whole coconuts for a nickel from street venders on both sides of "Fourth of July avenue," nickname for the street in Balboa, Canal zone, that divides the staid, Puritan, prohibition Yankee quarter from the exotic old town of Panama.

Across the center of this famous thoroughfare lies a line. On one side of the street is Old world comfort. On the other is the strictest of American discipline. On both sides there is discipline as far as sanitation is concerned, due to the activities of soldiers, whom your buggy driver tells you "must clean the streets for everybody else."

It is said to be a test of one's equilibrium to try and walk right along the straight and narrow line that separates Panama from the Canal zone, without flinching, to either side.

A Mother's Love

A father may turn his back on his child, brothers and sisters may become inveterate enemies, husbands may desert their wives, wives their husbands, but a mother's love endures through all; in good repute, in bad repute, in the face of the world's condemnation, a mother still loves on, and still hopes that her child may turn from his evil ways and repent. Still she remembers the infant smiles that once filled her bosom with rapture, the merry laugh, the joyful shout of his childhood, the opening promise of his youth; and she can never be brought to think him all unworthy. —Washington Irving.

Where the Lace Comes From

In the good old days when Robin Hood and Richard the Lion-Hearted were active, Nottingham, England, was a great market town near the boundaries of Sherwood forest. Today its more than a quarter-million people spend most of their time making machine lace and hosiery. Yet notwithstanding the miles of lace and machine-made lace curtains, the city preserves a remarkable air of romance. It has sent many distinguished sons into the world since the days of the famous sheriff of Nottingham. One of these is General Booth, founder of the Salvation army.

Must Know Rural Sociology

The training of rural school teachers is not greatly different from the training of any other teacher. The technique of teaching reading is exactly the same in the rural school as in the village school, and this applies to all other subjects.

The social atmosphere of the rural school is somewhat different from that of the village school and always will be. The teacher in the rural school should understand and appreciate rural sociology.—Successful Farming.

Trial by Stupidity

The criminal prosecution and punishment of animals was formerly common. A cock was burned at the stake for the "unnatural and heinous crime" of laying an egg. Pigs that killed children—and it seems that pigs used to kill children—were hanged, no doubt as a warning to other pigs. There are records of an eight months' trial of weevils at St. Jean-de-Maurienne in 1587. Many such prosecutions were held.—Winthrop D. Lane in The Bookman.

A Crop From Your Trees

Planting of nut trees is in general comparatively new in this country, says the American Tree association. Until within the last ten years, except in the regions where commercial nut raising had become established, the individual's proposal to plant trees for the raising of nuts was usually met by scornful comment. In some European countries nut and fruit trees along the roads are sources of material profit.

Ancient City of Birds

Below Sidon, but above or north of Tyre, lay a city called in ancient times Ornithopolis, meaning the city of birds. Much of the glass now called by us Sidonian is decorated with birds in various poses, sitting, flying, nesting, says the London Times. Many of the birds resemble storks and swans, a circumstance which suggests that this city was a center for the manufacture of glass in the time of Augustus and Tiberius.

Earth's Land and Water

About three-fourths of the earth's surface is covered by water, the total area being approximately 139,435,000 square miles. The average depth of the ocean is 12,500 feet.

Arab Flute Players Masters of Melody

The flute is the most interesting of all the Arab instruments and the hardest to play. It consists of a long reed hollowed out, about half an inch in diameter and from two to three feet long. It has eight stops, but there is no sort of mouthpiece.

The sound is produced by the player blowing across the top of the flute at some particular angle which I have never been able to discover, and producing the softest, saddest, deepest note one can possibly imagine.

To the most unmusical, the sound of the long flute must appeal, and when accompanying one of those love ballads of the South it is enchanting.

These flutes are used to accompany all kinds of songs, but chiefly those concerning the exploits of heroes and the love lays which hold such a big place in all Arab melodies. Occasionally it is used to follow religious chants, but not always.—R. V. C. Bodley in "Algeria From Within."

Medicine in Slot Machines

Medicine is being dispensed by slot machines in London. When the Londoner feels the need of something to cure a cold or to quiet his nerves he drops a coin in a slot machine on the street corner and receives the needed "relief." Machines will soon be ready to supply most any cure from pills to hair tonic, it has been reported.

IN YEARS GONE BY

10 YEARS AGO

Corporal Edgar Friedman arrived in New York, home from the world war.

Meeker Terwilliger was a business visitor in Chillicothe Monday.

Mr. and Mrs. Charles Hill of near New Holland, have received word that their son, Sgt. Earl Hill, would be home from the war in a few days.

15 YEARS AGO

Call is extended to Rev. C. B. Beckes by the Presbyterian congregation.

Miss Agnes Ryan, daughter of Mr. and Mrs. D. J. Ryan, is ill of typhoid fever.

Miss Lillian Jones will entertain with a 1 o'clock luncheon Easter Monday in honor of Miss Elizabeth Weldon.

25 YEARS AGO

Miss Ethel Dumm was united in marriage April 5 to Edward Carle of Circleville.

Mrs. Jennie Boggs and daughter, Miss Nelle, and Mrs. S. B. Evans and daughters, Misses Mame and Helen, were guests of Mrs. Hunsicker in Woodlyn yesterday.

Ryan and English have dissolved partnership.

Art Treasure Brought From English Mansion

A Fifteenth century window of stained and painted glass from the beautiful chapel of Hampton court, an ancient English mansion house, is at the Boston Museum of Fine Arts.

Hampton court was built by Sir Roland Lenthal about the year 1435, a little more than a half-century before Columbus voyaged to America. Sir Roland, who built the mansion under the auspices of Henry VI, had become wealthy partly through the victory of Agincourt, where he had acquired a number of prisoners.

As was customary in those days, a chapel was a component part of the dwelling. It is thought that the glass was made by John de la Chambre pere, who painted much of the fine ecclesiastical glass of the period, notably the great St. Cuthbert window at York minster. It is interesting to note in this Fifteenth century work that there is much plain glass inserted and then painted, although stained glass was widely used at the time. In this example, the hair and beards of the apostles are painted on. Above eight apostles — Peter, Andrew, James, John, Bartholomew, Matthew, James the lesser, and Simon —set in niches under painted canopies are figures of St. Francis and St. John the Baptist.

Hats Denote Wealth

The Yamis, who live on a little island south of Formosa, have two ambitions—to build fine boats, whose sides they ornament with beautiful designs, and to possess silver hats—the larger the better, for by the measure of his silver hat is the prestige of the individual judged.

The first requirement is a quantity of silver coins, which are laboriously beaten with a stone into thin strips. The strips are then made into cone-shaped hats. Some of the hats belonging to the more affluent of the colony come down to the shoulders. An oblong opening is left for the eyes, so that the owner may survey the admiration his large hat attracts.

Impatient Griselda

by Dorothy Scarborough

WHAT HAS HAPPENED SO FAR.

WHEN Lilith Holden died and left the infant Lilith, Guinn, her husband, married Irene Robeline, who had been in love with Guinn. For twenty years Irene worked and slaved as the wife of the handsome Texas minister. The love she hoped to earn she found was given wholly to the beautiful grown-up Lilith. As Guinn spoiled this blonde image of the dead Lilith, Irene buried her grief in ministering to her own children, Tina, Ross, Lundy and Patricia, who were secondary in their father's affections. After college Lilith, given a year to study music in New York, fell in love with Bill Chester, scion of wealth and family tradition. At home Tina wearing Lilith's cast off clothes, which failed to hide her dark gypsy-like beauty, becomes engaged to a handsome lad, Dan, beloved by all the family. Lilith, seeking only her own selfish ends, breaks her engagement with Roger Devereux, Texas boy, when Bill promises to end his betrothal to Sally Burton, society girl. Before sailing for Paris where his rich grandfather has demanded his presence, Bill madly in love with Lilith devotes his last week to her. Before sailing she seals her love by giving herself to him. Lilith spends her days re-reading Bill's cables confirming his love. But in Paris he agrees to marry Sally at his grandfather's command. Lilith is stunned with the message, "Sally and I were married this morning. Forgive me and forget." Lilith for the first time learned grief. She threw herself into her music study. Then came an offer of a Winter in Paris with Vivien Winthrop, an opportunity to wither Bill with scorn. But a doctor's visit ends all. Lilith is to have a child. She moves to an unknown address. Will Lundy, family friend, finds her there and tells the truth to Irene upon his return. Irene outwits the family and plans to join Lilith with Lundy. Lilith coldly agrees to their plan.

NOW GO ON WITH THE STORY.

CHAPTER LX.

IRENE found she needed all her optimisim, all her courage, of her faith, to get through each day as it came. To be away from Guinn and the children was like being deprived of light and air. They were needing her at home, and she wasn't there. But Lilith needed her worse now . . . To have to lie to Guinn—could she ever get over it? But she had to do it, to save him from heartbreak.

Unused as she was to the city noises, she couldn't sleep well at first. She would lie as still as possible, so as not to disturb Lilith in the next room, and would think of home—Guinn, missing her, hampered because she wasn't there to do the thousand and one little services she did for him; Tina, needing help about her trousseau and her wedding plans; Tina and Dan, who would so soon leave her. She hated to miss a single hour of her child's brief comradeship now. But she'd throw her whole heart into the wedding plans when she got back. And it was good to think of Tina as so utterly happy . . . unaffected, unashamed, joyous in her love for Dan, his love for her. Thoughts of Tina comforted her in those terrible midnights—Tina was a woman, with a capacity for love as deep as her own, with potentialities of tragedy, if that love had been thwarted.

Thank God for little Tina's happiness! . . . In her innocent, unspoiled joy she was still a charming child. Thank God that her love was beautiful and gay, that her future stretched out fair and bright. She could stand anything, she told herself, remembering that Tina's happiness was assured. . . .

Miss Mattie was as irritating a hair shirt as could be imagined, Irene gathered from home letters. But her discipline would be good for the family. Maybe they'd been coddled too much. But, oh, how she longed to be back at home coddling them again! . . .

If the nights were hard, the days were harder. To face all day that tragic mask, that figure in icy armor, and show no emotion, was a terrific test of endurance. Would her own nerves stand it? But the thought of Guinn gave her strength. She was bearing all this that he might not bear it. It would be harder for him than for her. Women were better actors than men—better liars. He wouldn't know how to deceive, to cover anything up—so the truth would spread and destroy them all. Think of Tina, facing this shame—her joyous wedding plans wrecked; the boys humiliated, suffering—especially Lundy, who adored Lilith; little Pat, troubled and mystified. How could Guinn ever stand in his pulpit again if this disgrace were known?

No, if it killed her, she must bear it in secret, to save them all . . . to save Lilith.

What torture of shame this proud girl was suffering in silence! What would she have done, if help hadn't come when it did? Irene's mother heart yearned over the girl, felt each pang with her. Oh, life could be incredibly cruel to women who loved!

She gauged the intensity of love that Lilith must have felt by the fierceness of the hatred she showed now. . . . To think that Lilith, the proud, the beautiful, the beloved, should be so crucified!

The girl moved in silence through the days, speaking only when it was necessary, and then as briefly as possible, with words that were like icy flame to scar the mother's spirit. What could the future hold for this tragic young soul? At least, it would not hold open disgrace, if she could shield her.

Irene could hear her moving restlessly about at night, and she herself would lie in cramped stillness so that the girl might think her sleep. At ever so slight a motion on her part, Lilith became instantly still, and Irene could imagine the tensity of muscle that kept her so. What thoughts companioned her through her sleepless hours? . . .

One day the girl said to Dr. Lundy, "You won't let me die, will you?"

"No, indeed," he answered with matter-of-fact cheerfulness. "Millions of women go through this every year. It will soon be over, and you'll be well again."

"Death would be easier—but I have a reason for wishing to live—a little while, at least."

"I'll see that you live, my dear," he promised heartily.

"Thank you." The eyelids fluttered down over blue eyes. Then Lilith turned and left the room . . .

There were times, too, when Irene's compassion failed her, when she was stirred to the depths of her being by resentment that Lilith should have brought all this suffering on innocent loved ones. She was no simple, unsophisticated girl, unable to realize what she did. No, she was woman of the world enough to have had her eyes wide open. Why, why had she done it? Was this the reward that she, the stepmother, should have, for all her years of patient care for Lilith?—years of seeing her own children set aside for this pampered favorite, indulged by her father to her own destruction and theirs? Oh, it wasn't fair, it wasn't fair! Where was the justice in this world? . . . She would writhe as she lay on her sleepless bed, would start upright in the madness of her rebellion.

But always compassion came to calm her. With her fatal instinct for sympathy, her clairvoyance of another's pain, Irene became Lilith, and bore her suffering with her. . . .

Irene longed to go to her, to clasp her in pitying arms, but she knew that would be foolish. From her shadowy corner she spoke quietly.

"Lilith, my child, I know how hard it is."

The girl turned her burning eyes upon her. "You know nothing! You have borne children, yes. That's only a physical fact—that any animal can go through with. But you were—married! You had a home. The man you loved was with you—he hadn't——"

Then she stopped, her body trembled, and a look of desperation came into her eyes. She turned quickly and darted from the room.

Tears slipped down Irene's cheeks as she sat in her shadowy corner. True, true, the girl was suffering what she hadn't had to bear. She thought of the months before Tina was born, of how happy she was, though not quite happy in Guinn's love. Safe in the parsonage, with Guinn beside her. It had been a sacred joy to wait for her child to be born. . . . Poor little Lilith! . . . She looked forward to the time when Tina should have children, with Dan, as a devoted husband, to care for her.

The days dragged by as Spring advanced.

One twilight, as the two sat on the little roof, watching the lights wink out in the windows opposite the court, Lilith spoke suddenly, in accents of bitterness:

"You've kept your promise about asking questions. But I know you wonder."

"Lilith, any woman who has ever deeply loved can understand. Love is an awful power!"

Lilith gazed at her intently, as if seeing a new woman. "What would you have done—if the man you loved had married someone else?"

As Irene looked at the girl, it seemed as if the dead Lilith were there to mock her. Her own, dealthless pain possessed her.

"It did happen to me, Lilth! I loved your father with all my soul—before he married your mother."

"Yes?"

"I did. I felt as you do, that I couldn't go on living—but nothing is ever quite so bad as we think it.

"I'm not given much to prayers," came the weary young voice.

She mustn't preach; she mustn't sentimentalize. Lilith hated all that.

Lilith gazed ahead of her in silence, as if she hated and despised everything in the world. . . .

One afternoon when Dr. Lundy was there, she fixed her ironic eyes on him and Irene.

"Here's my stepmother, leaving her home and her own children to play midwife to my folly—because she adores my father so much that she couldn't bear to have him know the truth," she said. Her lips smiled.

"Lilith, hush!" cried Irene, shocked and distressed.

"True, isn't it?" she probed. "That is the reason why you are keeping it from him?"

"Yes, it's true," said Irene.

Lilith turned to Lundy. "And here you are, a busy doctor, leaving your hospital and your patients, to see me through—because you love my stepmother so much."

"Lilith! Stop!" cried Irene springing up.

Lilith faced the man with mocking eyes. "True, isn't it?"

"Quite true," he answered gravely, his eyes unflinching. "I've always loved her, since the first time I laid eyes on her. Since long before she married your father."

The girl laughed, a bitter laugh that came strangely from young lips.

"I met a different brand of devotion!" she cried.

She laughed again, shrilly—then her laughter broke into sobbing.

"Oh, Lilith, my child!" Irene folded her arms about her and held her shuddering body close, as if to protect her from all harm.

The hysterical sobbing went on. The young body shook with convulsions.

"Lilith, stop!! You'll hurt yourself," the doctor warned her!

But she couldn't stop. The long repression was having its reaction at last, and hysteria shook her uncontrollably.

Suddenly she uttered a sharp cry of physical pain, as if stabbed by a poignard.

Lundy glanced at Irene. "'Phone your doctor and the nurse."

Irene obeyed, like a terrified automaton. She, who had faced the birth of her own children with cheerful courage, now felt awe-stricken, horrified, as if something too calamitous to be borne were about to happen, but she gave no sign.

Soon the other doctor and the nurse were there and Irene obeyed the orders that the men barked, her hands busy, swiftly and quietly, but her mind palsied.

The baby was born, a little boy.

"Premature," said the local doctor, as he examined the child.

"Will it live?" Irene asked.

"Can't say, yet."

(Continued Monday.)

THEATRES

"THE SATIN WOMAN"

A most unusual attraction is offered by the Cliftona theater on Tuesday, when the Mrs. Wallace Reid-Gotham Production, "The Satin Woman," is presented as the screen headliner.

The story deals with a woman who is so engrossed with her position as leader of fashion, that she forgets she is also a wife and mother—until it is too late. Her life is then spent in trying to atone for her past forgetfulness and watching over her only daughter. Then comes an unusual situation; the mother, to save her daughter from the wiles of an adventurer, is forced to become the rival of her child for the favor of a man worthy of neither of them. The outcome is both extremely dramatic and surprising.

Mrs. Wallace Reid personally appears in the title role of "The Satin Woman" and supporting her will be found one of the few real all-star casts of screenland. To Rockliffe Fellows and John Miljan go the honors of leading men and other well known screen favorites prominent in the cast include, Gladys Brockwell, Alice White, Ruth Stonehouse, Ethel Wales, Laska Winters and Charles "Buddy" Post.

TALKIES AT GRAND

If the actors and actresses who appeared at the Circleville Grand opera house when it was new, could have walked out of their dressing rooms Monday night and seen what was coming to pass before their eyes and ears, they would have picked up their flowing skirts or caught their flying coat tails on a nail as they scurried back. For on a screen at the back of the stage a man sat at a piano and played, a full orchestra rendered several selections and a German band walked in front of a saloon and played Irish music.

The talkies have come to town, the sound pictures that are revolutionizing the movies. The feature picture too was part talkie, with synchronized music from start to finish. In this there was a splendid plea given by a lawyer with a voice that recorded well. The state's lawyer also made a short talk, and ridiculed the lawyer's defense. The judge was also heard to admonish the jury as they leave to decide whether the defendant, a young girl, is guilty or not guilty.

The whole evening was quite a novelty in Circleville and the pictures were shown without a hitch. When the big railroad engine started to puff away, one recalled the Lyman Howe pictures 20 years ago, shown at the Grand with their accompaning surprising noises from the rear of the screen.

Nuisance Tax

The average cold, we are told, costs $3.30. The 30 cents is probably the amusement tax.—Philadelphia Inquirer.

Keep youth longer!

cleanse the system of poisons

Two of the great enemies to youth and vitality are delayed elimination and intestinal poisons. To keep yourself free from both these common difficulties will help you to stay young.

With the use of Nujol you can do it too. For Nujol absorbs body poisons and carries them off, preventing their absorption by the body. Nujol also softens the waste matter and brings about normal evacuation. It is harmless; contains no drugs or medicine. It won't cause gas or griping pains, or affect the stomach or kidneys. Every corner druggist has Nujol. Make sure you get the genuine. Look for the Nujol bottle with the label on the back that you can read right through the bottle. Don't delay, get Nujol today.

BIBLE THOUGHT

LET US EXAMINE OURSELVES—Sow to yourselves in righteousness, reap in mercy; break up your fallow ground: for it is time to seek the Lord, till He come and rain righteousness upon you.—Hosea 10:12.

PRAYER—Be merciful unto us O God, enable us to turn from sin unto Thee.

WASTE AT ITS WORST

While he was secretary of commerce, Herbert Hoover did a great deal of useful and important work in showing us how to eliminate waste.

The productivity of our factories and the general level of our prosperity were raised to higher levels when people discovered better ways to use their resources without wasting any of them.

There was one form of waste, however, that Hoover was unable to reach—the costliest, most inexcusable form of all; the waste of brains.

In the April issue of Hygeia, the health magazines of the American Medical association, Donald A. Laird tells how a psychologist recently descended on a group of ordinary day laborers who were busy digging a sewer ditch and gave them intelligence tests.

Most of the laborers showed just about the kind of result you would expect. But three or four of them, to the amazement of the psychologist, proved that they had unusual intelligence. Their brains were keen enough for them to become members of the professions. The marks they got on the tests were about what would be expected, say, of an average good lawyer.

Yet, fitted by nature to work with their brains, they were doing jobs that any ordinary half wit with a husky physique could do just as well as they.

Waste of that kind is waste that hurts the whole nation. It is more serious than waste of oil, of coal, of power, of timber, of soil. Yet it is a matter that seldom gets any attention. We expect it to right itself. We take it for granted that every man will somehow find his way into the place where he can exercise all of his faculties and powers to the best advantage and carelessly overlook the hundreds and thousands of cases where this fails to happen

The psychologist who tested these ditch diggers didn't bother to find out why the three or four men of above-the-average intelligence happened to be digging ditches. Probably he wouldn't be much wiser if he had. The thing is not uncommon, and there is a variety of reasons for it. We're fairly familiar with most of them.

Much as we talk about the "glorious opportunities" of our country, the plain fact remains that many, many people never get a fair break. It is a lot of poppycock to say that every man gets just what he is entitled to. Many a perfect dumbell who had the good fortune to be born of wealthy parents is occupying a pleasant, highly-salaried position today while another man, with a brain ten times as good as his, who came from the depths of poverty and misfortune, and never had a chance to develop his latent abilities, is working as a day laborer.

That is the kind of waste that demands checking most of all Suppose we do waste gasoline, steam, food, electricity, or such-like things; we are rich, and it won't cripple us But we are not any too rich in brains. We never can be. And every brain that lies unused when it might have been put to work in the service of the whole nation represents a loss that can never be made good.

MARIE L. HAMILTON,
Worthy Matron.

LUCY B. PRICE,
Secretary.

No, Panama Hat Isn't From Panama at All

One of life's little oddities is that the country which gives its name to the panama hat doesn't make the hat at all. And the panama isn't a straw hat, properly speaking.

The hats are made from the shredded leaves of a species of small palm which grows almost entirely in countries south of Panama. Ecuador, Peru and Colombia are among the principal producers.

The young leaves are cut, dipped in boiling water and bleached before the women who weave them begin work. The hat is not woven under water, as is commonly believed, although water does play a part in the process. Usually the weavers begin work early in the morning, to keep the shreds from drying and to keep their fingers constantly damp, an essential factor in handling the strips. A weaver will spend as much as three weeks in making a single hat. However, the time is profitably spent since a genuine panama will sell for $50 or more in its native land—and will cost much more before it reaches you.

Canal Zone Line Test of One's Equilibrium

You can buy whole coconuts for a nickel from street venders on both sides of "Fourth of July avenue," nickname for the street in Balboa, Canal zone, that divides the staid, Puritan, prohibition Yankee quarter from the exotic old town of Panama.

Across the center of this famous thoroughfare lies a line. On one side of the street is Old world comfort. On the other is the strictest of American discipline. On both sides there is discipline as far as sanitation is concerned, due to the activities of soldiers, whom your buggy driver tells you "must clean the streets for everybody else."

It is said to be a test of one's equilibrium to try and walk right along the straight and narrow line that separates Panama from the Canal zone, without flinching, to either side.

A Mother's Love

A father may turn his back on his child, brothers and sisters may become inveterate enemies, husbands may desert their wives, wives their husbands, but a mother's love endures through all; in good repute, in bad repute, in the face of the world's condemnation, a mother still loves on, and still hopes that her child may turn from his evil ways and repent. Still she remembers the infant smiles that once filled her bosom with rapture, the merry laugh, the joyful shout of his childhood, the opening promise of his youth; and she can never be brought to think him all unworthy. —Washington Irving.

Where the Lace Comes From

In the good old days when Robin Hood and Richard the Lion-Hearted were active, Nottingham, England, was a great market town near the boundaries of Sherwood forest. Today its more than a quarter-million people spend most of their time making machine lace and hosiery. Yet notwithstanding the miles of lace and machine-made lace curtains, the city preserves a remarkable air of romance. It has sent many distinguished sons into the world since the days of the famous sheriff of Nottingham. One of these is General Booth, founder of the Salvation army.

Must Know Rural Sociology

The training of rural school teachers is not greatly different from the training of any other teacher. The technique of teaching reading is exactly the same in the rural school as in the village school, and this applies to all other subjects.

The social atmosphere of the rural school is somewhat different from that of the village school and always will be. The teacher in the rural school should understand and appreciate rural sociology.—Successful Farming.

Trial by Stupidity

The criminal prosecution and punishment of animals was formerly common. A cock was burned at the stake for the "unnatural and heinous crime" of laying an egg. Pigs that killed children—and it seems that pigs used to kill children—were hanged, no doubt as a warning to other pigs. There are records of an eight months' trial of weevils at St. Jean-de-Maurienne in 1587. Many such prosecutions were held.—Winthrop D. Lane in The Bookman.

A Crop From Your Trees

Planting of nut trees is in general comparatively new in this country, says the American Tree association. Until within the last ten years, except in the regions where commercial nut raising had become established, the individual's proposal to plant trees for the raising of nuts was usually met in scornful comment. In some European countries nut and fruit trees along the roads are sources of material profit.

Ancient City of Birds

Below Sidon but above it north of Tyre is a city called in ancient times Ornithopolis, meaning the city of birds. Much of the glass now sold here as Silverian is decorated with birds in various poses, Strabo, the historian, says the Lord Tyre, Many of the birds resemble storks and swans and one cannot see which suggests that this city was a center for the manufacture of glass in the time of Augustus and Tiberius.

Earth's Land and Water

About three-fourths of the earth's surface is covered by water, the total area being approximately 139,435,680 square miles. The average depth of the ocean is 12,500 feet.

Arab Flute Players Masters of Melody

The flute is the most interesting of all the Arab instruments and the hardest to play. It consists of a long reed [illegible] about half an inch in diameter [illegible] two to three feet [illegible] stops, but there is no set [illegible] piece.

The sound is produced by the player blowing across the top of the flute in some particular style which I have never been able to discover, and producing the soft, sad notes, deepest notes [illegible] possibly utter.

To these unmusical [illegible] and of the long flute must [illegible] with accompaniments of [illegible] love ballads of the South it is enchanting.

These flutes are used to accompany all kinds of songs [illegible] the [illegible] concerning the exploits of heroes and the love [illegible] which hold such a big place [illegible] Arab poets. Occasionally [illegible] set to new words and [illegible] classes—R. V. C. Bodley in "All Got a Horn Within."

Medicine in Slot Machines

[illegible] Lozenges [illegible] Lozenges [illegible] the [illegible] are [illegible] the [illegible] the [illegible] [illegible] [illegible]

First English Bible

John Wycliffe, first man to translate the Bible into English, was sixty years old when he finished his task. The work belongs to the final period of his life, that time during which he was greatly persecuted by both the church and state. The Wycliffe version was addressed to the entire English people, high and low, rich and poor. This is proved by the character of the copies that have survived. About thirty of these remain and some are large folio volumes, handsomely written and illuminated in the best style of the period. Others are plain copies of ordinary size for private persons or monastic libraries.—Detroit News.

What an Educator Knows

According to a local educator, we do not know how to converse. "Most of us," says he, "deal in trivialties. Listen to the average conversation on the busses and cars. 'I said' and 'he said' are repeated until one wonders if the race has really progressed as much as advertised. If a stenographer could be engaged to take down the conversation of three or four men the printed lines would be ridiculous."—Washington Star.

USE OF ACID MILK IN INFANT FEEDING

Dr. Copeland's Opinions Regarding the Use of Acidified Milk for Youngsters Who Do Not Thrive on the Ordinary Bottle Mixtures.

By ROYAL S. COPELAND, M. D.
United States Senator from New York.
Former Commissioner of Health, New York City.

THERE are almost endless problems associated with the feeding of babies. The breast-fed youngster is lucky. If there is an abundant supply of mother's milk of good quality, the baby thrives and is well. Otherwise the household is upset.

DR. COPELAND

At least once a month you read my comment that the mother-job is the hardest job in the world. It is a satisfying job, but it is none the less trying on that account.

Worry, watchful care, attention to detail, promptness and everlasting demands make the raising of the baby an anxious and wearing period in a woman's life. But it is only by the application of all these attentions that the infant's health can be safe-guarded.

The bottle-fed infant is a special problem. It is a problem to the doctor and nurse, as well as to the mother.

Cows' milk is physically and chemically different from human milk. To make the former at all suitable for baby's digestion, it must be "modified." It must be diluted and otherwise treated to adapt it to the infant's need.

The worst of it is that, with the best of scientific effort, there are children who do not thrive on the ordinary bottle mixtures. For various reasons they cannot digest them.

Because of these experiences there has been much experimentation in recent years to find a satisfactory substitute for the usual combination. Ways have been sought to make cows' milk more suitable for the baby.

One method proposed is to give acid milk, sour milk. This will seem strange if you have not thought about it. But one reason why some infants do not digest the milk as they should is because there is a lack of acid in the stomach juices. To overcome this lack, acid is added to the milk.

If somebody besides an anxious mother should read these lines, it is well to consider the importance of acid milk in certain dyspepsias or indigestions of adults. Many persons have enjoyed great benefits from the taking of buttermilk and similar preparations.

In infant feeding several ways of acidifying the milk have been tried. After long experimentation lactic acid has been decided upon as most satisfactory.

What is lactic acid? It is the acid which is found in ordinary sour milk But it is formed, too, in the fermentation of other substances, and can be made by the chemist. When separated, it is like a syrup in its nature, but it is very bitter to the taste.

Whatever acid is recommended by the doctor, it is added to the milk, drop by drop. All the time the mixture is vigorously stirred to avoid the making of big curds. Any acid placed in milk will cause it to curdle and this is true of lactic acid. To prevent the formation of curds of large size the stirring is essential.

To this mixture honey, corn syrup, or corn sugar is added. There results a digestible and palatable mixture.

Mind you—I am not recommending this form of feeding for YOUR baby. Whether this youngster requires acid milk will be determined by your doctor. It is my desire merely, to let you know there are advanced methods in infant feeding, methods intended to overcome fermentation and the other unpleasant effects of ordinary milk. It is not desirable to use acid milk if the usual mixtures agree.

There can be no doubt that this system of feeding will relieve the anxiety of an occasional mother. If you think you are one such mother, talk with your doctor.

Answers to Health Queries

L. X. Q.—What would you suggest for eyes that are blood shot?

A.—Have a careful examination, as it is possible you need glasses.

* * *

M. R. K. Q.—What do you advise for blackheads?

A.—Correct the diet, by cutting down on sugar, starches and coffee. Eat simple food and avoid constipation.

* * *

J. S. S. Q.—What will stop a person from drinking excessively?

A.—Chronic alcoholism is a condition very difficult to treat. Withdrawal of alcohol is essential. Place the patient in an institution where he can be watched during the trying period of the first two weeks.

Busy Human Heart

The adult heart—the only organ in the body whose muscles never rest nor sleep during life—makes an average total of 108,000 beats every 24 hours! How does this busy organ find time to "eat" and fortify itself for its arduous labors?

Prof. Y. Kato of the Okayama Medical college, Japan, says in Popular Science Monthly, that nature has provided what he described as little "dinner pails" from which the muscle fibers of the heart are ingeniously "fed." These "pails" are tiny, disklike organs between the muscle fibers, and their duty is to collect food materials from the blood and pass them around to the heart muscles.

Public Auction

I will hold a closing out sale of household goods of Mrs. Susan R. A. Lanman at 519 E. Main St., consisting of beds, chairs, rugs, tables, stoves, dishes, dresser, sewing machine and canned fruit, on

SATURDAY, APRIL 13, 1929, AT 1 O'CLOCK.

O. A. LANMAN, Gdn.
C. G. Chalfin, Auctioneer.
Wayne Hoover, Clerk.

Wills Kept on Record

Lawyers and searchers in titles frequently apply for permission to scrutinize old wills in the records of the New York Surrogates' court, in some cases where the influence of the dead hand is still felt. Often they play a part in resolving title to a piece of property that may have been originally secured from the first Indian resident of Manhattan or granted later by the Dutch or by King Charles or King James.

Absolutely Noiseless

Elderly Gentleman (wishing to rent room)—Yes, this room pleases me, but I notice there's some sort of a manufacturing plant in the rear facing the alley; doesn't it make considerable noise?

Landlady—Oh, no, sir; not at all That's a felt slipper factory.

VON BORA MEMBERS ENJOY PROGRAM

The large number of members who attended the meeting Monday night of the Von Bora society of Trinity Lutheran church were delighted with the fine program that had been arranged. Mrs Emanuel Poppen of Grove City, told of the importance and plans for the Thank Offering of 1930. She also explained the uses to which this offering is put.

The remainder of the program was filled by local talent. Mrs. Karl J. Herrmann played a piano solo that was very popular with those assembled. Miss Irma Leist read an interesting missionary paper, and Mrs. Will Fitzpatrick and Miss Vera Walters added to the evening's pleasure by singing a duet.

George Troutman then showed picture slides of his trip through the Holy Land. These were made particularly interesting by his lecture that accompanied them, in which he told of his personal experiences and reactions when he visited these sacred spots.

Following the business and the splendid program, lunch was served by the April committee.

ART WORK IS ON DISPLAY

Miss Iola Wentworth, daughter of Mrs. Grace Wentworth, is one of the students from the Columbus Art school who have their work on display in the windows of The Union Co., on N. High-st Columbus. The school and this store have cooperated to present window backgrounds showing the progress of civilization.

Every one of the 18 window backgrounds of the store vividly presents a step onward in transportation or communication, contrasting in each window the old and the new.

In the foreground of each window, in colors harmonizing with the backgrounds, is presented the modern merchandise offered within the store.

The theme offered by Miss Wentworth in this display is "The Old Telephone and the Modern French Telephone." Miss Wentworth's talents for art are showing promise for a brilliant future which will probably be developed along commercial lines

O. E. S. CARD PARTY IS BIG SUCCESS

Sixteen prizes were won and duly distributed Monday night at the card party sponsored by the second social division of the local chapter of Eastern Star, held in the lodge room of the Masonic temple. There were 25 tables of bridge and two tables of 500 in progress. The room was bedecked for the occasion, with a number of baskets of beautiful flowers donated by friends and members of the organization.

As these guests entered, each was given a number, from among which was drawn the lucky numerals for the awarding of the door prize. Mrs. Earl Lutz was the winner of the prize which was a cake baked by Miss Flo Bell. Miss Lucile Rooney was the winner of the first prize for the women, a pond lily candle holder. The men's first prize winner was Snow Dresbach, who received a smoking set Miss Helen Schiear won the second woman's prize, a box of stationery; Miss Lucile Neuding, third bath salts and powder; Mrs. Ray Reid, fourth, a vase; Mrs. Snow Dresbach, fifth, a box of tallies and score pads; Mrs Charles Fullen, sixth, three dozen gladiolj bulbs; Mrs. W. E. Hilliard, seventh, a box of soap; and Miss Ruth Holman, eighth, a box of soap.

Earl Price won the second men's prize, an amber cigarette set; Lloyd Beatty, third, a pair of socks; and Robert Denman, fourth a deck of cards. Mrs. Harry Stevenson won the women's prize at 500, a salt and pepper set; Jack Ryan won a box of cigars as the second trophy for men in 500, and Alfred Lee won the second men's prize, a deck of cards. A cake baked by Mrs. N. G. Hamilton was won by Mrs. Noah Spangler.

Following the card games, refreshments were served by the committee. These were Mrs. W L. Mack, chairman, Mrs. Florence Nelson, Mrs. Amy Nickerson, Mrs Minneola Spangler, Mrs. Laura Helwagen and Mrs. Laura King. Miss Flo Bell is chairman of the social division number two, which sponsored the affair.

LADIES' AID MEETS WITH MRS. KERNS

The Ladies' Aid society of the Morris United Brethren church met Thursday afternoon at 2:30 o'clock at the home of Mrs. Newton Kerns in Saltcreek-twp. Her daughter, Miss Florence Kerns was the assisting hostess. The usual opening form was used including songs, and the reading of scripture and prayer by the pastor, Rev L. W. Green. The minutes were read by the secretary, Mrs. A. J. Warner, and also the resolutions of respect that had been written, published and given to the family, for Mrs. Sarah Leist, a member of the Aid who died recently. After a song and the Lord's Watch, the business session was closed, and the social hour enjoyed.

This consisted of a reading by Mrs A. J. Warner, a piano solo by Miss Dorothy Kerns and a selected reading by the Rev. L. W. Green The two hostesses served bountiful refreshments to the 25 members present.

ANNOUNCE BIRTH OF DAUGHTER

Mr. and Mrs John D. Bragg of Montclair-ave announce the birth of a daughter on Sunday, April 7. The baby has been named Sibyl Jeanette.

—o—

Miss Evelyn Adkins, who has been spending a vacation with her parents, Mr. and Mrs George G. Adkins, returned to Ohio Wesleyan university at Delaware Monday night.

—o—

Miss Gladys Wentworth returned to school at Wooster college Wooster, O., Tuesday after visiting her mother, Mrs. Grace Wentworth, of W. Union-st.

How Does She Do It!

(Not a Hair Out of Place!)

Do you know the very best way to make hair stay just as you have dressed it? Simply a few drops of Danderine! Try it, and you'll never want to use sticky dressings again—or even brilliantine.

A little Danderine on the scalp actually dissolves every particle of dandruff scale, and leaves the head absolutely CLEAN. But stroke a few drops through the hair (use your comb or a Danderine-dampened towel) and see how well it looks and behaves! Any permanent wave or water wave lasts much longer and looks much nicer when Danderine is used instead of water to "set" the wave.

Ask Your Druggist

Get a bottle of Danderine and start its benefits today. Every drugstore in America has it, for only 35c. For the finest dressing you could find, and the best aid to hair health yet discovered, just try—

Danderine

Yacht Crew Cleared

J. D. Schofield, brother of Captain John Schofield who was lost overboard from the 'Nomad," heard the Federal Commissioner announce that the government had no case against the men and owner, Leland Ross, of the ill-fated vessel which was found drifting helplessly off Cape May, N. J.

Home Made Milk Drinks Solve Many Problems

"BUT, mother! I just can't drink any more milk."

How often that cry has presented the ever puzzling problem of giving the child the sufficient milk nutrients it must have!

Of course, mothers are learning, more and more, the uses of milk in cooking, especially milk in its concentrated, evaporated, form. But a supplementary aid is suggested here in the various forms of home prepared milk drinks.

A quart of milk a day is essential to the health of every child, but without some ingenuity on the part of the mother, she may face difficulties in supplying this quantity in a palatable form.

The infinite variety of drinks which may be prepared with milk suggest an easy way to solve this problem. Also these drinks are attractive at informal social affairs, between meal delicacies, and as bedtime bites. Nothing is better than a warm rich milk drink to quiet the nerves and produce sleep. Drinks prepared with evaporated milk are especially useful for this purpose, since this is the most digestible form of milk there is.

Here are some tested suggestions:

Sarsaparilla Cream

¼ cup evaporated milk
½ cup sarsparilla
Dash nutmeg

Chill ingredients thoroughly. Combine and whisk with a Dover egg beater. Pour into glass and add dash nutmeg. Yield: 1 serving.

Loganberry Milk Punch

1 cup and 2 tbsp. loganberry juice, chilled
1 tsp. sugar (more if desired)
¾ cup evaporated milk, chilled
1 cup and 2 tbsp. ice water

Mix fruit juice, water and sugar and add to milk. Serve ice cold. Yield: 4 servings.

Orange Nog

⅔ cup sugar
2 cups orange juice
1½ cups chilled evaporated milk diluted with 1½ cups ice water

Dissolve sugar in orange juice and chill. When ready to serve, pour orange juice slowly into diluted milk. Shake vigorously in a mason fruit jar. Serve immediately. Yield: 6 servings.

Egg Nog Supreme

½ cup evaporated milk
2 eggs
2 tbsp. sugar
1 cup ginger ale, chilled
Dash nutmeg

Chill milk and whip until frothy. Beat eggs thoroughly. Add sugar and ginger ale. Pour over milk and stir until blended. Pour into glasses and add dash nutmeg. Yield: 2 servings.

Chocolate Malted Milk Beverages

½ cup chilled evaporated milk diluted with ½ cup ice water
From 1 to 2 tbsp. dry chocolate malt mixture

Put the cold diluted milk into the shaker. Add malt mixture and shake thoroughly. The variation in the amount of malt mixture used depends upon the variety used and taste desired. A fruit jar, or any bottle with a close fitting stopper may be used for a shaker. Another satisfactory way of mixing is to pour the milk into a deep mixing bowl, sift the dry mixture over the top and beat vigorously with a Dover egg beater. Yield: 1 large serving.

Cocoa for Adults

2 tsp. to 1 tbsp. cocoa
2½ tsp. sugar
Pinch salt
¼ cup boiling water
½ cup evaporated milk
½ cup boiling water
½ tsp. vanilla

Blend dry ingredients, add ¼ cup water. Bring to the boiling point and cook rapidly one minute to form syrup, stirring constantly to keep smooth. Add evaporated milk to boiling water and heat to the scalding point in a double boiler. Add the cocoa syrup to milk and continue cooking two minutes. Remove from fire and add vanilla. Whisk with a Dover egg beater and serve hot.

Cocoa for Children

1½ tsp. cocoa
2 tsp. sugar
¼ cup water
Pinch salt
½ cup evaporated milk diluted with ½ cup boiling water
Few drops of vanilla

Same method of mixing as Cocoa for Adults.

Chocolate

1 square chocolate
½ cup hot water
2½ tbsp. sugar
1 cup evaporated milk diluted with
1 cup water
Pinch salt
½ tsp. vanilla

Melt chocolate over hot water, add hot water and cook to a smooth paste 5 minutes. Add sugar to diluted milk and scald in a double boiler. Add chocolate syrup and continue cooking 5 minutes. Add salt and vanilla, whip with Dover egg beater. Serve hot.

News of the Homes and Home Folks

Published by STEVENSON'S

VOL. I. No. 15. April 9, 1929.

QUICK, DIOGENES—HERE'S THE TRUTH, AT LAST!

There's an old saying to the effect that "He who runs may read" or "He who reads may run" or something like that, and until a few days ago, we weren't sure just what it meant. Now, all can be told—draw up your chairs. The truth of the matter is that we have been studying a lot of advertisements of late, and it is our opinion that this old saying is nothing more or less than a crack at the advertising profession: One reads a store advertisement and then runs to indulge in a perfect orgy of buying.

Either that, or the reverse. We wonder. We wonder if there isn't a growing tendency to read and then run in the opposite direction; if some advertisers aren't overstepping the bounds of credulity. For example, manufacturers of cigarettes and other similar commodities. In other words, isn't some advertising approaching the works of a certain Mr. Grimm, who specialized in fairy-tales? Undoubtedly.

But draw your chairs a little closer, not this advertising, not 'Round the Town News!' It's true we have things to sell, and a desire to sell them, but that isn't all. There are other features which enter into every transaction. Reliability, satisfaction and guarantee. The reliability of the merchandise sold, the satisfaction it should give to the purchaser, the guarantee that should accompany every sale. How about it, are they worth anything to you? If so you will understand why we have to stand back of our store advertising. One slip and we're licked. And that would never do.

* * *

Of course we can afford to become superlative about superlative quality goods. When we talk about whole-house comfort from Estate Heatrola in the coldest months of the year, we mean just that. Anyone who doubts us doesn't have to take our word for it. Come in the store and we'll give you a list of Heatrola enthusiasts, who enjoyed June warmth in their homes this past winter, and will continue to enjoy summer warmth through the winters to come. Ask them. They'll reel off superlatives in praising their Heatrolas that we can't even pronounce.

* * *

And continuing these remarks—what's the matter with Hickory Porch Furniture, Sellers Kitchen Cabinets, Bee-Vac Vacuum Cleaners, etc?

Answer: Nothing.

* * *

Changing oil-heat into ice? Haven't you seen that done yet? Well, just step into our store and we'll show you how to convert 2c worth of common coal-oil into ice and cold storage. It's just the thing for country residents. Think of the time it will save.

* * *

"An honest confession is good for the soul." Did you notice in our last issue that our curtain rods sold for $3.04 per rod? Well, that's all wrong; we'll sell you almost a dozen for that. Our copy showed the price as "30c" which is correct), but the printer man took the "c" sign for a "4" and made it read "$3.04." You can't blame us, Mr. Printer, if we write so that you can't read it—Mr. H. Van Riper didn't teach us penmanship when we went to school.

HOMER HANDY'S HINT

By adding a half pint of oil of cedar to each gallon of paint, one may combat the very annoying curiosity of flies and gnats to find out for themselves if wet paint is really wet. Some may prefer to use oil of citronella in smaller quantities but the effect is the same. Insects will avoid the paint because of the odor.

Don't forget that your climbing flowers will soon be needing some trellises to climb upon. Now's a good time to pick them from our stock. Prices are lower than you can buy the lumber, build them, and coat them with paint.

* * *

Miss Marion: Junior, can you tell me where shingles were first used?

Junior Barnhill: Yes, ma'am, but I'd rather not.

* * *

Have you seen the new, 1929 Estate Gas Ranges? Every feature you could ask for—and more, including the famous Fresh Air Oven—built on the principle of a double boiler—which assures you of perfect baking results—every time. And what is perhaps the most remarkable feature of all: Lower Prices. And you can make your own terms within reason.

* * *

One good way to prevent bleeding at the nose is to keep it out of other people's business.

* * *

To build a furnace fire or not to build a furnace fire—that is the question, except in homes which are Heatrola-heated. That's something entirely different, for everyone knows Heatrola is an excellent auxiliary heater—flooding every room in the house with moist, warm air these cool nights and mornings. Heatrolas are on sale here and for folks who want to end their heating troubles right now—we recommend Heatrola most heartily. Terms, of course, as generous as we can make them.

* * *

Physician: Your husband must have absolute quiet. Here is a sleeping draught.

Mrs. Newhouse: When shall I give it to him?

Physician: You don't—you take it yourself.

* * *

That's about all—see you next week.

SOCIAL ACTIVITIES

Miss Allison Delaplaine, Editor, 'Phone 581.

VON BORA MEMBERS ENJOY PROGRAM

The large number of members who attended the meeting Monday night of the Von Bora society of Trinity Lutheran church were delighted with the fine program that had been arranged. Mrs. Emanuel Poppen of Grove City, told of the importance and plans for the Thank Offering of 1930. She also explained the uses to which this offering is put.

The remainder of the program was filled by local talent. Mrs. Karl J. Herrmann played a piano solo that was very popular with those assembled. Miss Irma Leist read an interesting missionary paper, and Mrs. Will Fitzpatrick and Miss Vera Walters added to the evening's pleasure by singing a duet.

George Troutman then showed picture slides of his trip through the Holy Land. These were made particularly interesting by his lecture that accompanied them, in which he told of his personal experiences and reactions when he visited these sacred spots.

Following the business and the splendid program, lunch was served by the April committee.

ART WORK IS ON DISPLAY

Miss Iola Wentworth, daughter of Mrs. Grace Wentworth, is one of the students from the Columbus Art school who have their work on display in the windows of The Union Co., on N. High-st Columbus. The school and this store have cooperated to present window backgrounds showing the progress of civilization.

Every one of the 18 window backgrounds of the store vividly presents a step onward in transportation or communication, contrasting in each window the old and the new.

In the foreground of each window, in colors harmonizing with the backgrounds, is presented the modern merchandise offered within the store.

The theme offered by Miss Wentworth in this display is "The Old Telephone and the Modern French Telephone." Miss Wentworth's talents for art are showing promise for a brilliant future which will probably be developed along commercial lines.

O. E. S. CARD PARTY IS BIG SUCCESS

Sixteen prizes were won and duly distributed Monday night at the card party sponsored by the second social division of the local chapter of Eastern Star, held in the lodge room of the Masonic temple. There were 25 tables of bridge and two tables of 500 in progress. The room was bedecked for the occasion, with a number of baskets of beautiful flowers donated by friends and members of the organization.

As these guests entered, each was given a number, from among which was drawn the lucky numerals for the awarding of the door prize. Mrs. Earl Lutz was the winner of the prize which was a cake baked by Miss Flo Bell. Miss Lucile Rooney was the winner of the first prize for the women, a pond lily candle holder. The men's first prize winner was Snow Dresbach, who received a smoking set Miss Helen Schiear won the second woman's prize, a box of stationery; Miss Lucile Neuding, third bath salts and powder; Mrs. Ray Reid, fourth, a vase; Mrs. Snow Dresbach, fifth, a box of tallies and score pads; Mrs. Charles Fullen, sixth, three dozen gladiola bulbs; Mrs. W. E. Hilliard, seventh, a box of soap; and Miss Ruth Holman, eighth, a box of soap.

Earl Price won the second men's prize, an amber cigarette set; Lloyd Beatty, third, a pair of socks; and Robert Denman, fourth a deck of cards. Mrs. Harry Stevenson won the women's prize at 500, a salt and pepper set; Jack Ryan won a box of cigars as the second trophy for men in 500, and Alfred Lee won the second men's prize, a deck of cards. A cake baked by Mrs. N. G. Hamilton was won by Mrs. Noah Spangler.

Following the card games, refreshments were served by the committee. These were Mrs. W. L. Mack, chairman, Mrs. Florence Nelson, Mrs. Amy Nickerson, Mrs Minneola Spangler, Mrs. Laura Helwagen and Mrs. Laura King. Miss Flo Bell is chairman of the social division number two, which sponsored the affair.

LADIES' AID MEETS WITH MRS. KERNS

The Ladies' Aid society of the Morris United Brethren church met Thursday afternoon at 2:30 o'clock at the home of Mrs. Newton Kerns in Saltcreek-twp. Her daughter, Miss Florence Kerns, was the assisting hostess. The usual opening form was used including songs, and the reading of scripture and prayer by the pastor, Rev. L. W. Green. The minutes were read by the secretary, Mrs. A. J. Warner, and also the resolutions of respect that had been written, published and given to the family, for Mrs. Sarah Leist, a member of the Aid who died recently. After a song and the Lord's Watch, the business session was closed, and the social hour enjoyed.

This consisted of a reading by Mrs. A. J. Warner, a piano solo by Miss Dorothy Kerns and a selected reading by the Rev. L. W. Green. The two hostesses served bountiful refreshments to the 25 members present.

Home Made Milk Drinks Solve Many Problems

"BUT, mother! I just can't drink any more milk."

How often that cry has presented the ever puzzling problem of giving the child the sufficient milk nutrients it must have!

Of course, mothers are learning, more and more, the uses of milk in cooking, especially milk in its concentrated, evaporated, form. But a supplementary aid is suggested here in the various forms of home prepared milk drinks.

A quart of milk a day is essential to the health of every child, but without some ingenuity on the part of the mother, she may face difficulties in supplying this quantity in a palatable form.

The infinite variety of drinks which may be prepared with milk suggest an easy way to solve this problem. Also these drinks are attractive at informal social affairs, between meal delicacies, and as bedtime bites. Nothing is better than a warm rich milk drink to quiet the nerves and produce sleep. Drinks prepared with evaporated milk are especially useful for this purpose, since this is the most digestible form of milk there is.

Here are some tested suggestions:

Sarsaparilla Cream

⅓ cup evaporated milk
⅓ cup sarsparilla
Dash nutmeg

Chill ingredients thoroughly. Combine and whisk with a Dover egg beater. Pour into glass and add dash nutmeg. Yield: 1 serving.

Loganberry Milk Punch

1 cup and 2 tbsp. loganberry juice, chilled
1 cup and 2 tbsp. ice water
1 tsp. sugar (more if desired)
¾ cup evaporated milk, chilled

Mix fruit juice, water and sugar and add to milk. Serve ice cold. Yield: 4 servings.

Orange Nog

⅔ cup sugar
2 cups orange juice
1⅓ cups chilled evaporated milk diluted with 1⅓ cups ice water

Dissolve sugar in orange juice and chill. When ready to serve, pour orange juice slowly into diluted milk. Shake vigorously in a mason fruit jar. Serve immediately. Yield: 6 servings.

Egg Nog Supreme

½ cup evaporated milk
2 eggs
2 tbsp. sugar
1 cup ginger ale, chilled
Dash nutmeg

Chill milk and whip until frothy. Beat eggs thoroughly. Add sugar and ginger ale. Pour over milk and stir until blended. Pour into glasses and add dash nutmeg. Yield: 2 servings.

Chocolate Malted Milk Beverages

½ cup chilled evaporated milk diluted with ½ cup ice water
From 1 to 2 tbsp. dry chocolate malt mixture

Put the cold diluted milk into the shaker. Add malt mixture and shake thoroughly. The variation in the amount of malt mixture used depends upon the variety used and taste desired. A fruit jar, or any bottle with a close fitting stopper may be used for a shaker. Another satisfactory way of mixing is to pour the milk into a deep mixing bowl, sift the dry mixture over the top and beat vigorously with a Dover egg beater. Yield: 1 large serving.

Cocoa for Adults

2 tsp. to 1 tbsp. cocoa
2½ tsp. sugar
Pinch salt
¼ cup boiling water
½ cup evaporated milk
½ cup boiling water
½ tsp. vanilla

Blend dry ingredients, add ¼ cup water. Bring to the boiling point and cook rapidly one minute to form syrup, stirring constantly to keep smooth. Add evaporated milk to boiling water and heat to the scalding point in a double boiler. Add the cocoa syrup to milk and continue cooking two minutes. Remove from fire and add vanilla. Whisk with a Dover egg beater and serve hot.

Cocoa for Children

1½ tsp. cocoa
2 tsp. sugar
¼ cup water
Pinch salt
½ cup evaporated milk diluted with ½ cup boiling water
Few drops of vanilla

Same method of mixing as Cocoa for Adults.

Chocolate

1 square chocolate
¼ cup hot water
2⅔ tbsp. sugar
1 cup evaporated milk diluted with
1 cup water
Pinch salt
½ tsp. vanilla

Melt chocolate over hot water, add hot water and cook to a smooth paste 5 minutes. Add sugar to diluted milk and scald in a double boiler. Add chocolate syrup and continue cooking 5 minutes. Add salt and vanilla, whip with Dover egg beater. Serve hot.

Have you seen the new, 1929 Estate Gas Ranges? Every feature you could ask for—and more, including the famous Fresh Air Oven—built on the principle of a double boiler—which assures you of perfect baking results—every time. And what is perhaps the most remarkable feature of all: Lower Prices. And you can make your own terms within reason.

* * *

One good way to prevent bleeding at the nose is to keep it out of other people's business.

* * *

To build a furnace fire or not to build a furnace fire—that is the question, except in homes which are Heatrola-heated. That's something entirely different, for everyone knows Heatrola is an excellent auxiliary heater—flooding every room in the house with moist, warm air these cool nights and mornings. Heatrolas are on sale here and for folks who want to end their heating troubles right now—we recommend Heatrola most heartily. Terms, of course, as generous as we can make them.

* * *

Physician: Your husband must have absolute quiet. Here is a sleeping draught.

Mrs. Newhouse: When shall I give it to him?

Physician: You don't—you take it yourself.

* * *

That's about all—see you next week.
